## Cell Salt (3) Deficiencies by Earthday

Each new arrival is a miracle on Earth, from conception to berth. After ones 9 month travel with solely the Mother to depend on for nourishment and cell development, now one must actively replenish the remaining 3 cell salts to complete the Zodiacal procession. Base on your Earthday these are the three deficiency suggestions to replenish your temple.

Cell salts satisfy mineral imbalances in the body, stimulating the body's natural healing process. When your body lacks these important cell salts, you are more vulnerable to common health concerns. By replenishing them, your body is better prepared to treat illnesses and enjoy better overall wellness.

Hyland's Cell Salts are made unlike any other cell salt product, with unique tablets and powder (Bioplasma Sport) that dissolves almost instantly on the tongue.
