

## **Privacy Statement for the Media**

At City Mission, we truly appreciate everything you do to get our stories out into the community. We are very happy to get you everything you need to write a story, but please keep in mind that we are also doing everything we can to support our residents in their recovery. Please understand our need to protect the confidentiality of each of our residents. Recovery is a very delicate balance, and many of our residents are in vulnerable situations at critical moments in their lives. Some residents will prefer not to use photos or full names, but we do appreciate your need for photos and full names, so we will do our best to choose residents for our stories and press releases who are firmly rooted in their recovery. We are also willing to work with you to provide photos, full names, and any other information as needed. Feel free to contact us with any questions, concerns, or additional details. Thank you for everything you do for City Mission.
