

To Whom It May Concern;

RE: Jessica STANLEY

I have had the pleasure of working alongside Ms Stanley for the past year and can say with certainty she possesses the highest standard of organisation, customer service and creativity.

Jessica's communication skills are exceptional and she easily builds rapport with all clients. Jessica is also able to politely and quickly diffuse difficult situations when needed.

Jessica works well in a team environment, and is always happy to lend a hand where possible. Jessica consistently goes above and beyond the call of duty, lending her expertise in matters of marketing and visual art where required.

Jessica's organisational skills surpass her age. She never has to be asked twice to do a task, and always has jobs done to perfection and in a timely manner.

Jessica is a fast learner, having quickly picked up medical terminology in the year she has been with us. Her initiative shown with clients when in pain is testament to this.

I cannot recommend Jessica highly enough, and do not doubt she will be a valued member of any team.

I am happy to discuss Jessica's application further and can be contacted on 0403 883 140.

Warmest Regards,
