

MAKE BETTER GO/NO-GO DECISIONS

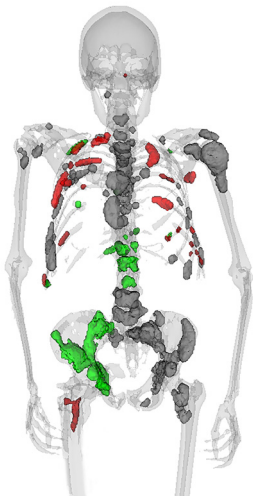

## WHAT CLINICAL QUESTIONS DO YOU NEED ANSWERED?

AIQ's technology allows pharmaceutical companies to evaluate novel therapies faster and with fewer patients, while reducing costs and expediting clinical trials. Our platform quantifies intra-patient heterogeneity of treatment response, which drives clinical outcomes.

WE DELIVER

## TREATMENT RESPONSE ASSESSMENTS FOR CLINICAL STUDIES

AIQ's Treatment Response Assessments enhances your understanding of pharmacodynamics with precise spatiotemporal lesion analytics.

- 1** Rapidly quantify pharmacodynamic effects in all lesions
- 2** Understand the biological drivers for mechanisms of resistance
- 3** Determine pharmacodynamic effects with fewer patients
- 4** Evaluate novel combination and sequence therapies
