

DRIVE-ON DOCK: FLEXIPOINT

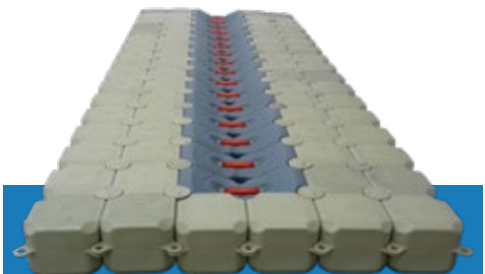

FITS ALL BOATS AND RIBS

OUR FLEXIPOINT DRIVE-ON DOCK MAKES IT EASY BOTH TO DRY MOOR AND LAUNCH YOUR BOAT. IT EASILY ADAPTS TO THE WEIGHT AND SIZE OF ANY VESSEL.

Our drive-on dock makes it easy both to dry moor and launch your boat. It is composed of 50 cm x 50 cm x 40 cm modular floating cubes and cradles equipped with horizontal rollers.

These support cradles hold the hull of the boat or rib.

To facilitate lifting your boat onto the dock, the entry cradle has a "V shaped" notch with an additional roller at the start. You can get right onto the platform simply using your engine power.

CHARACTERISTICS

- Easy dry berthing and launch
- Easy access to your boat
- No more need for anti-fouling (saving money and the environment)
- Low-maintenance
- Can be used for overwintering
- Fits all types of boat
- Range of anchoring systems and accessories

→ COMPLETELY MODULAR

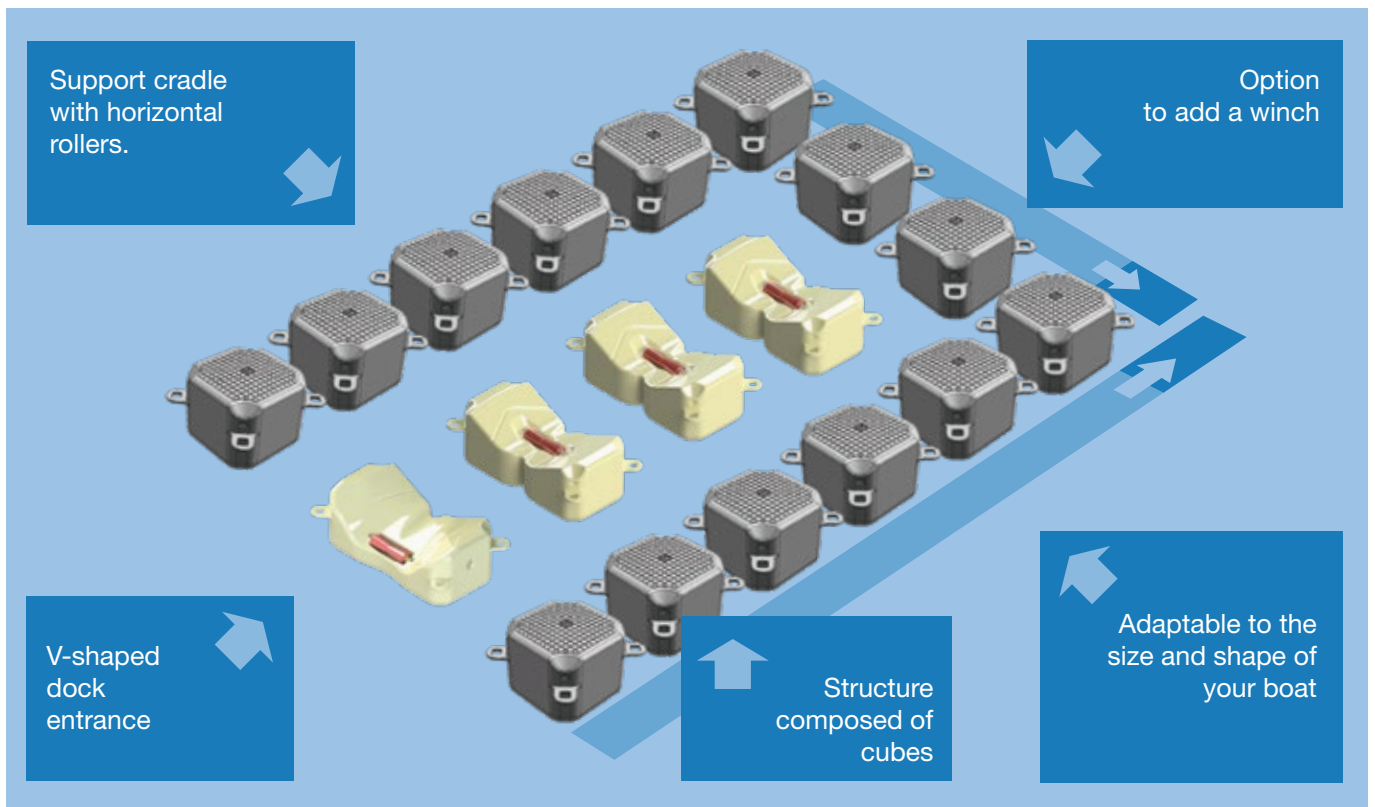

The dock can be easily adapted to the size and weight of your boat by adding additional rows of cubes to the outside of the structure.

→ EASY TO ASSEMBLE

The SunnyDock cubes are equipped with four corner tabs at different heights enabling them to be linked together using connecting pins and tightened with a locking key.

→ 100% CUSTOMIZABLE

The incredibly simple design of the modular floating cubes means that they can be used with a wide variety of anchors and accessories.

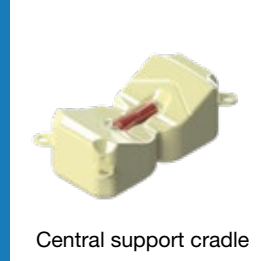

The Flexiport drive-on dock is composed of 50 cm x 50 cm x 40 cm modular floating cubes and support cradles equipped with horizontal rollers.
