

1. Client categories

Wallter assigns a category to each client and prices differ per category. Categories are assigned based on the below criteria:

Category	Based in / Engaged in	Business Activity Risk
1	EEA	Low
2	EEA	High
3	None EEA	Low
4	None EEA	High
5	ICO and Crypto related	High

Explanations and definitions:

- The ultimate and final decision on the assigned category lies with Wallter.
- The criteria indicated above to determine the category apply in the majority of the cases, but not always.
- EEA = European Economic Area. A list of countries that are members of the EEA is provided below.
- To be considered an EEA based company, the following requirements must all be met:
 - The company applying for the account is incorporated in an EEA member country.
 - The companies forming the ownership structure (if any) of the applying company are incorporated in EEA member countries.
 - The Ultimate Beneficiary Owner (UBO), director(s) and shareholder(s) each have a passport issued by an EEA member country.
 - The company's headquarters is in an EEA member country.
- Wallter maintains a list of business activities it considers to be higher risk in nature. The list contains business activities which require relatively more time and effort to assess and manage compliance risk on an ongoing basis. A list of higher risk business activities is provided below. Any business activity not on the list below is considered lower risk in nature.
- In case of ICO activity, Category 5 will be assigned, regardless of where the company is based.

EEA member countries:

The EEA countries are Austria, Belgium, Bulgaria, Croatia, Republic of Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden and the UK.

Higher risk business activity list:

Adult, crypto currency exchange, healthcare, high value dealers (artefacts and antiquities, gold and diamonds, other), ICOs, land - based/offline betting, casinos, gaming machines and poker, lotteries, online gambling, public procurement, real estate investment, Nutra.
