Notes:

- The top of the Leg Attachment (**H2**) should be between the upper extents of the main calf muscle and just below the popliteal crease
- The lower end of the Leg Attachment (**H1**) should be above the ankle joint
- The straps fit most children and the straps may be trimmed to remove excess length. If necessary custom length straps are available. Please contact us if you require assistance
- Heights **H1** and **H2** are based on the ADM being fitted in the neutral position as recommended
