

EXPERIENCE

Adjunct Professor

University of Arts | Philadelphia | 03.2020 -

I teach a weekly class called Design Methods 1: Physical Computing to the graduate students of Industrial Design in the University of Arts. It is an introductory course to physical computing technologies including microcontrollers, IoT and sensors, that will help students to add sensing and interactivity to their products design.

Creative Technologist & Media Artist

Freelance | New York | 01.2019 -

As a technologist and experience designer, I participated in multiple research and design projects, including the collaboration with the Landsky Lighting Co. to restore and innovate the lighting experience in the Beijing Old Summer Palace. The goal of the research was to explore the future of interactive installation and lighting experience. As a web developer, I have also worked with clients from all backgrounds to help them launch their websites. As a new media artist, using various of technologies, I showed my works on several exhibitions that aimed to highlight the cultural thinkings in a modern digital age.

Design Resident

WIX | New York | 06.2019-09.2019

Selected to take part in WIX's web design residency program. Participated in lectures and workshops led by design luminaries including Debbie Millman, Jessica Walsh, Alexandra Zsigmond and more. Work product included website re-design and re-branding the website for a local non-profit NGO company called Girl Empowerment Matters Inc, designing online identity for the one from the latest Oprah's book club, The Water Dancer by Ta-Nehisi Coates.

Interaction Designer & Creative Coder

IDEO | New York | 07.2018-01.2019

I worked in IDEO New York as a full time Interaction Designer and Creative Coder, my works includes working within project teams to integrate interaction design into overall design solutions, communication with multidisciplinary teams and interacting with clients to develop insight analysis and make functional prototypes. Using the technologies such as Javascript, HTML, hardware coding and IoT, working for clients including American Express, Union City Square, 7-Eleven etc.

Interaction Design Intern

IBM | Shanghai | 04.2016 - 08.2016

As a UX designer intern, my works in IBM includes working closely with UX designer to determine different levels of data presentation, establishing the style guideline, conducting user testing, redesign the internal document management tools for IBM.

Interaction Design & Marketing Intern

Tik Tok | Shanghai | 01.2016 - 04.2016

Tik Tok, was known as Musical.ly back then, is a online platform for users to create and share short videos. I worked closely with marketers and engineers to innovate a more intuitive and attractive user interface.
