

# Roast Me

## How To Play (Roasts Only)

To start the game, each player draws 7 roasts (white). The player with the least social media followers gets roasted first.

Each round, the other players submit their best roasts, face down, to the player roasted.

The roasts are shuffled and read aloud, and with help from the group, the player roasted picks the best roast. Whoever submitted that roast wins the round.

After the round, a new player is roasted, and everyone draws back up to 7 roast cards.

\*Note: Fill-in-the-blank cards are read aloud normally, and when the fill-in-the-blank comes, the player who submitted the roast will shout out the fill-in word(s). Then the roast is read aloud again with the fill-in.

## How To Play (Roasts + Challenges)

If you're feeling adventurous...5 challenge cards (red) are placed face down to start the game.

To win the round, the player with the best roast is given a challenge card to complete, chosen by the player roasted. Complete the challenge to collect the card, and win the round.

After the round, a new player is roasted, and everyone draws back up to 7 roast cards. A new challenge card is placed faced down to replace the one used.

\*Note: Unless otherwise stated on a challenge card, majority vote determines if a challenge card was completed successfully.
