

# HEALTHFULLY @ WORK

Bring students and staff back safely and Healthfully with a COVID-19 Back-to-Work Solution

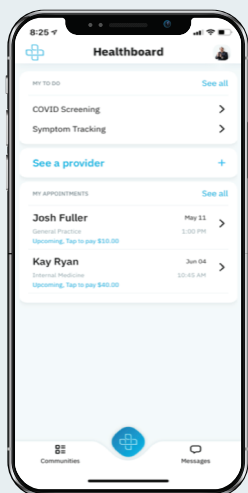

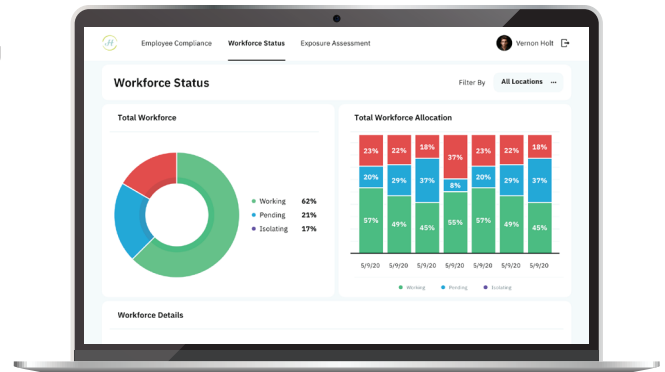

Universities and schools need a platform to create a safe environment for everyone to return to campus. An intelligent combination of management tools, easy-to-use apps, and access to health services will provide the necessary testing, tracking, prevention education, and ongoing support to inspire workforce confidence.

## THE HEALTHFULLY @ WORK PLATFORM

### EMPLOYER DASHBOARD

The Healthfully Employer Dashboard helps manage, monitor, and minimize COVID-19 at educational facilities. Updated with real-time data from the Healthfully app along with information feeds from health providers and labs, the dashboard enables monitoring of:

- Student/staff compliance with screening, physician visits, testing and isolation
- Individual status to understand who is able to work or attend school, who is isolating, and who is undergoing or pending testing
- Exposure assessment by work location
- Management of best courses of action

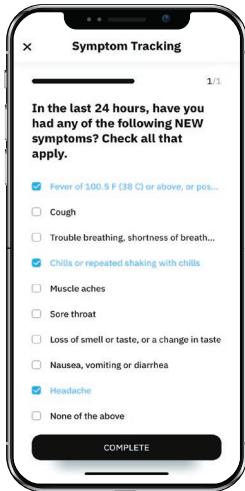

### HEALTHFULLY APP

Employees and students utilize the Healthfully @ Work app, which works on Web, iOS, or Android platforms for maximum reach and convenience. It is HIPAA-compliant and highly secure. Its comprehensive functions include:

- Daily self-screening and attestation
- Alerts and notifications for employer, employees and providers
- Telehealth physician visits and lab orders
- Testing and lab results
- Secure messaging
- Exposure management and compliance reporting
- Isolation & quarantine support communities
- Education

## HOW IT WORKS

### FOR THE STUDENT AND EMPLOYEE

- All learn about the importance of self-monitoring and safe behaviors through the Healthfully app.
- They answer a few quick questions daily to attest that they are neither exhibiting symptoms nor been to any hot spots within the past 14 days.
- Healthfully survey algorithm determines if an employee needs follow up via doctor visit or testing.
- Healthcare provider conducts online visit to confirm that a test is necessary. If so, individual is tested same day at a convenient location.
- Those testing positive receive through the app:
  - information about self-isolation
  - access to online care and check-in
  - connection to virtual support groups

### FOR THE EMPLOYER

Utilizing dashboard data coupled with a defined plan and set of workflows to help manage:

- Business risk associated with COVID-19
- Workforce availability
- Employee/student compliance with COVID-19 procedures
- Coronavirus exposure by location

## BENEFITS

### EMPLOYERS

- One-stop, comprehensive platform to address COVID-19 back-to-work/back-to-school
- Affordable and easy to deploy
- Promotes workforce, student, and consumer confidence
- Helps maintain business continuity and productivity
- Enables employer partnerships with area health providers
- Rapid response to staff's COVID-related needs

### STUDENTS & EMPLOYEES

- Access all COVID-19 resources through one easy to use app
- Gain confidence and peace of mind that organizational support is available
- Stay educated on latest COVID-19 prevention information
- Access helpful community resources for needed support to maintain health

## PRICING

Healthfully @ Work is available on a per employee per month rate.

## PARTNERSHIP OPPORTUNITY

The Healthfully platform is an ideal foundation for partners to create a back-to-work/school solution packaged with their own services to offer directly to educational institutions. Partners can include health systems, large medical groups, health insurance firms, employer benefits brokers, and wellness services companies.

Please visit [www.healthfully.io/solutions/employers-back-to-work](http://www.healthfully.io/solutions/employers-back-to-work) for details on the Healthfully @ Work package or contact Healthfully directly at 800-459-2003.
