

# HEALTHFULLY @ WORK

Bring employees back safely and Healthfully with a COVID-19 Employer Back-to-Work Solution

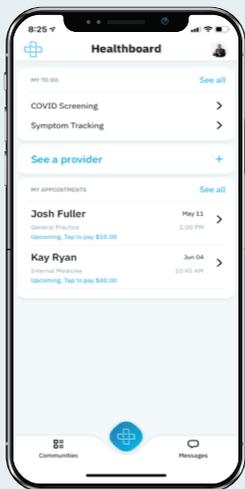

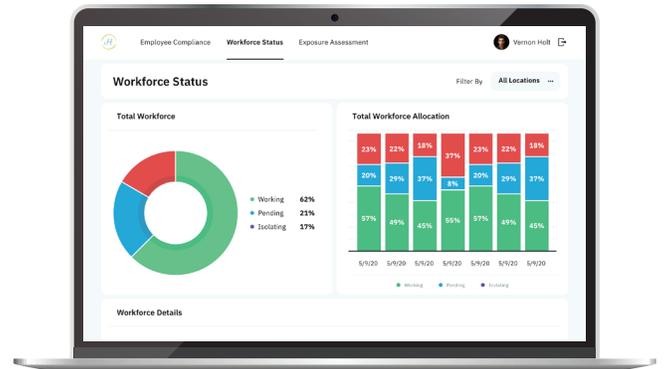

Employers need a platform to create a safe environment for their employees as they return to work. An intelligent combination of management tools, easy-to-use employee apps, and access to health services will provide the necessary testing, tracking, prevention education, and ongoing support to inspire workforce confidence.

## THE HEALTHFULLY @ WORK PLATFORM

### EMPLOYER DASHBOARD

The Healthfully Employer Dashboard helps manage, monitor, and minimize COVID-19 in the workplace. Updated with real-time data from the Healthfully app along with information feeds from health providers and labs, the dashboard enables monitoring of:

- Employee compliance with screening, physician visits, testing and isolation
- Workforce status to understand who is able to work, who is isolating, and who is undergoing or pending testing
- Exposure assessment by work location
- Management of best courses of action

### HEALTHFULLY APP

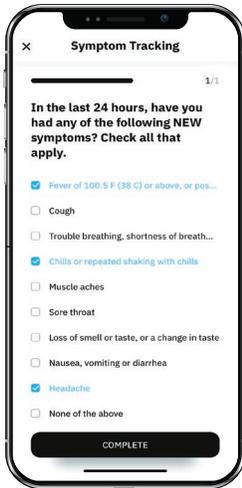

Employees utilize the Healthfully @ Work app, which works on Web, iOS, or Android platforms for maximum reach and convenience. It is HIPAA-compliant and highly secure. Its comprehensive functions include:

- Employee daily self-screening and attestation
- Alerts and notifications for employer, employees and providers
- Telehealth physician visits and lab orders
- Testing and lab results
- Secure messaging
- Exposure management and compliance reporting
- Isolation and quarantine support communities
- Employee education

Please visit [www.healthfully.io/solutions/employers-back-to-work](http://www.healthfully.io/solutions/employers-back-to-work) for details on the Healthfully @ Work package or contact Healthfully directly at 800-459-2003.

## HOW IT WORKS

### FOR THE EMPLOYEE

- Employees learn about the importance of self-monitoring and safe behaviors through the Healthfully app.
- They answer a few quick questions daily to attest that they are neither exhibiting symptoms nor been to any hot spots within the past 14 days.
- Healthfully survey algorithm determines if an employee needs follow up via doctor visit or testing.
- Healthcare provider conducts online visit to confirm that a test is necessary. If so, the employee is tested same day at a convenient location.
- Those testing positive receive through the app:
  - information about self-isolation
  - access to online care and check-in
  - connection to virtual support groups

### FOR THE EMPLOYER

Utilizing dashboard data coupled with a defined plan and set of workflows to help manage:

- Business risk associated with COVID-19
- Workforce availability
- Employee compliance with COVID-19 procedures
- Coronavirus exposure of employees by location

## BENEFITS

### EMPLOYERS

- One-stop, comprehensive platform to address COVID-19 back-to-work
- Affordable and easy to deploy
- Promotes workforce and consumer confidence
- Helps maintain business continuity and productivity
- Enables employer partnerships with area health providers
- Rapid response to staff's COVID-related needs

### EMPLOYEES

- Access all COVID-19 resources through one easy to use app
- Gain confidence and peace of mind that workplace support is available
- Stay educated on latest COVID-19 prevention information
- Access helpful community resources for needed support to maintain health

## PRICING

Healthfully @ Work is available on a per employee per month rate.

## PARTNERSHIP OPPORTUNITY

The Healthfully Back-to-Work platform is an ideal foundation for partners to create a packaged solution with their own services to offer directly to employers. Partners can include health systems, large medical groups, health insurance firms, employer benefits brokers, and wellness services companies.
