Experience

Monzo

Product Designer · April 2019–today

- Led design for 4 million customers across multiple product squads like a reward program, a paid account, and our loan product.
- Designed Monzo's credit score product which had 87% monthly retention.
- Partnered with product managers to drive the squad strategy and vision.
- Scaled our loans product which generated significant business revenue.

Alva

Freelance Product Designer · June 2020

- Designed and implemented an accessibility-first design system that increased the speed and quality of product releases.
- Shipped the first version of Alva's online menopause consultation.

Thriva

Senior Product Designer · July 2017–April 2019

- I was the first design hire — I established and grew the design function.
- Led all design output across digital projects, physical products, and marketing — recognised by Fast Company for great service design.
- Facilitated and ran regular customer research and usability testing.
- Hired our second designer and helped Thriva grow from 6 people to 35.
