

Dermatology, simplified.

Every person with a skin issue deserves the best possible care, every time.

Piction Health™ saves time and money by empowering every clinician to instantly identify skin conditions using AI.

Accuracy with Piction Health¹

Identify skin conditions the first time

Increase patient satisfaction

Save minutes per visit

Save \$160K/doc/year²

“Skin is really hard, and it’s even harder in telemedicine. When we share a skin case among colleagues and ask for help, no one knows what it is. I want this to be easier to diagnose, treat, and give patients the right answer.”

- Primary care physician practicing telemedicine in Maryland
