Our Mission is to empower people with physical and developmental challenges to discover their greatest strengths, and gain a sense of self-confidence and self-reliance through the special relationship with a horse.

SPRING 2021

HORSES & HEROES Hangout

On October 4 2020, TRCHB honored police, firefighters, first responders and their families at their therapeutic riding arena at the Huntington Central Park Equestrian Center. They set out to thank their local heroes for keeping the community safe during the Covid pandemic. The 'Hangout' successfully brought out the firefighters and heroes of our community. Families, kids and emergency personnel all came out to participate. Even the Orange County Register attended, in order to record the event and provide a bit of much appreciated free press. Another big hit came from the pony rides for the children which included a crafts table. The group also set out a delicious lunch spread.

Parents took lots of photos of their children petting and riding the volunteer horse heroes. The children and adults all had big smiles that shined through even while wearing their masks.

The photographer for the OC Register, Leonard Ortiz, took photos which he then took to print to the delight of all members of the TRC. In addition, the "Huntington Beach News" photographer also came to visit to snap happy photos. What an honor for the TRC!

All of the instructors and volunteers followed COVID precautions. All of the horses also completely loved all the attention and happily posed for their "five minutes of fame." TRC would love to continue to host more days for the community soon!

More details to come.....Please plan to attend to support our students and horses!

TRCHB is an all volunteer organization – we provide Equine Assisted Activities and therapies to individuals with disabilities.

Sponsors and Donors are Welcome
