This leaflet explains:

- Why the Practice collects information about you and how it is used
- Who we may share information with
- Your right to see your health records and how we keep your records confidential

What Is A Privacy Notice?

A privacy notice is a statement that discloses some or all of the ways in which the practice gathers, uses, discloses and manages a patient's data. It fulfils a legal requirement to protect a patient's privacy.

Why Do We Need One?

To ensure compliance with the General Data Protection Regulation (GDPR), Ledbury Health Partnership must ensure that information is provided to patients about how their personal data is processed in a manner which is:

- Concise, transparent, intelligible and easily accessible;
- Written in clear and plain language, particularly if addressed to a child; and
- Free of charge

What Is The GDPR?

The GDPR replaces the Data Protection Directive 95/46/EC and is designed to harmonise data privacy laws across Europe, to protect and empower all EU citizens' data privacy and to reshape the way in which organisations across the region approach data privacy. The GPDR came into effect on **25th May 2018**.

How Do We Communicate Our Privacy Notice?

At Ledbury Health Partnership, the practice privacy notice is displayed on our website, through signage in the waiting room, and in writing during patient registration (by means of this leaflet). We will:

- Inform patients how their data will be used and for what purpose
- Allow patients to opt out of sharing their data, should they so wish

What Information Do We Collect About You?

In the Practice we aim to provide you with the highest quality of health care. To do this we must keep records about you, your health and the care we have provided or plan to provide to you. These records may include:

- Contact we have had with you such as clinical visits
- Details and records about your treatment and care
- Results of x-rays, laboratory tests etc

It is good practice for people in the NHS who provide care to:

- Discuss and agree with you what they are going to record about you
- Give you a copy of letters they are writing about you, and
- Show you what they have recorded about you, if you ask

We will only store your information in identifiable form for as long as is necessary and in accordance with the NHS England's Rules.

Risk Stratification

Risk stratification is a mechanism used to identify and subsequently manage those patients deemed as being at high risk of requiring urgent or emergency care. Usually this includes patients with long-term conditions, e.g. cancer. Your information is collected by a number of sources, including Ledbury Health Partnership; this information is processed electronically and given a risk score which is relayed to your GP who can then decide on any necessary actions to ensure that you receive the most appropriate care.

Invoice Validation

Your information may be shared if you have received treatment, to determine which Clinical Commissioning Group (CCG) is responsible for paying for your treatment. This information may include your name, address and treatment date.
