The Raynor Massage training program and modality is a winner! After taking the 10 Day Diploma course, I can barely keep up with the demand for Deep tissue Massage! The training left me fully prepared to dive into a massage career and I would highly recommend it to anyone who wants to help people and make a living doing it!

What a blessing it was to take the diploma course with Terry! I felt so supported and honoured in the process and I graduated with a sense of accomplishment and security about the skills I learned. Not only do you learn how to heal others, you receive a deep level of healing through the process of learning. I am ready to start my practice and bring this powerful medicine to my community!

If you have heard the call- take it, your life will be changed for the better!

Raynor Massage is such an incredible type of massage and I am so happy that I learned it. I took this course in February of 2015 and now it is my full time career. All of my clients say I give the best massage ever with such good results. I am so grateful for the training I received from my instructor Terry Masson.

I took my diploma and advanced levels in Raynor massage during 2011 and 2012 and have never looked back. All the teachers are very very compassionate and fantastic massage therapists themselves. They work with feeling, appropriate depth and precision as this is how we are taught. I came away knowing how to give the most powerful form of healing massage I have ever received and how to go on developing my listening touch skills and unafraid to recognise my limits at any time. I have only ever felt as I never remembered feeling in my life, after only a few hours of Raynor massage. It was very intense and painful as only true healing is. But I felt like a different me for several months. The thing is that most people have lost the memories of how it was to feel completely present in body and mind present to life. When your body remains full of tension, you are unable to be fully (Massage regulation also gets a lot of money into the pockets of a few people...never forget that and it still does not mean you will get a good massage. In any case bad therapists tend not to be successful- as in any profession). I am grateful for having come across the Raynor school in my search for short intensive course. It allowed me to begin learning more. There is no price for such experiences. I also met Maureen Abson, my massage mentor and friend, who was the Raynor school director and one of a handful of teachers, at the time and one of the most accomplished practitioners I know.

I have no regrets about taking this course. It has changed my life. I get to connect with people on a spiritual level and help them better themselves mentally and physically. My trainer Nicole was so supportive and Amazing. This program has changed my entire view on reality. I 100% recommend this course to everyone.

After doing a ton of research I decided to travel up to Canada to attend Raynor Massage School. I am very happy with my decision and walked away very pleased with the skills I was taught. I have come back 4 times to attend classes. Each time I walk away with more knowledge of which I have been able to put to good use helping others with. I look forward to going back up to attend more classes with Terry. I highly recommend anyone who is interested in massage look into raynor it encompasses several types of massage for a whole body expertise and well being.

This course is amazing. You learn the foundation for deep tissue massage and so much more. Terry is an amazing teacher who adapts to the specific needs of his students. By the end of this course I feel totally prepared and inspired to continue to more advanced levels. The resulting massage you learn is above and beyond other styles that I have ever experienced. True therapy that is integrative to the entire mind, body and soul. Highly recommend it. Tina (Graduated Certificate Course November 2016)

Karina Gerdum Cibrian and Sharla Duncan A bloody massive thank you so much for sharing your knowledge and amazing techniques to make our job easier and for the undeniable overflowing positive energy. This is such an overwhelming and amazing experience that will help me a lot to do my job easier. I will be forever grateful and I feel blessed that I did this course and went to the RIGHT School for a Massage Specialist/Practitioner. I am not expecting to have an overflowing knowledge and to improve more of my skills and prepare me for the future, Thanks for your help a lot!!! Worth it.

You created a very welcoming environment and feels like home and treat us with respect and no judgement at all, like a Family 😊

You both are amazing Instructors, Beautiful in and out, down to earth, and very professional (Hands down).

I HIGHLY RECOMMEND to all the promising Massage Specialist/Practitioner who are planning to take this course in the future, and 101% guarantee or money back. I encourage you to EXPERIENCE the training from the RIGHT instructor that are very passionate of what they do and with a beautiful touch with a heart, so you know what I am talking about.

Best decision ever to attend raynor education. great educators, amazing hands on exsperience. will def be upgrading to the advanced when I can afford to. It's exactly what I needed and my clients that relaxation techniques just were not doing the trick. looked into RMT school but already being a MOA, certified esthetician and relaxation massage therapist I didnt want to waste 2 more years learning about anatomy and physiology when the amount of times I've already had to go ov...

After taking the one week certification training last week, my path has a vision. Not fully knowing what to expect, I was shocked at the effectiveness of this technique. A shift not only physically, but emotionally and spiritually as well... actually more so. The slowly spilling over cup I carry is a little lighter this week and I cannot express my appreciation to Sharla and Karina for guiding and teaching me this gift. I look forward to pursuing my diploma. Thank you Raynor Massage!!

Took the course (diploma level) some 12 years ago and was taught by the man himself. He could release more tension with his little finger than any RMT using traditional methods...the Raynor System uses the holistic approach and does not limit itself to muscles and bones only. It is easy to criticize from behind a computer screen especially on subjects one knows f**k all about! Try a Raynor massage and you will discover more about your body than you thought possible, plus you may find that traditional methods are somewhat lacking.

I took the plunge into the Raynor Massage course after comparing the costs & time demands of other courses, and decided to dip my toe in with Raynor & if I liked it to go on to RMT school. I took the Raynor course and came away with the skills, confidence, and knowledge necessary to feel comfortable working on anybody as long as they've completed a medical history report. I've been successfully operating a business of my own now for 2 years and have made opportunities for myself to partner with 2 resorts, and one world class spa. Needless to say, I never felt the need to attend RMT school, this course has paid for itself multiple times over and is far more in depth than you might think. Thank you Raynor Massage!

I have been a qualified Raynor Therapist for 7 years and have loved the ability to really make a difference. I work in a small country town and have been gainfully employed there providing my services and making a difference there for 6 years. Brandon and Cori are wonderful, skillful, dedicated and very passionate about their course, the methods and making difference. I would recommend it to anyone without hesitation.

Incredible training spanning so many techniques. My only problem now is finding other Raynor practitioners for myself as I'm often unsatisfied with traditional western massages. Highly recommended!
