Our Expertise

We have 88 years of expertise in pharmaceutical care and specialization serving the commercial maritime fleet including fishing, crabbing and workboats.

We offer quality products at competitive prices. We provide coordination, consolidation and prompt turnaround times for your order. Our medical supplies and kits have complete labeling for improved safety. We offer advice on medication selection and use tailored to your specific needs. We monitor and report on medication utilization for each vessel

We provide medical kits for any size crew. Medical kits contain easy to follow directions and are designed for quick access under emergency situations.
