

**INVESTMENT OBJECTIVE**

The portfolio looks to deliver long-term capital growth with a moderately aggressive approach weighted towards higher risk assets such as equities and lower risk assets such as fixed income and property.

**INVESTMENT STRATEGY**

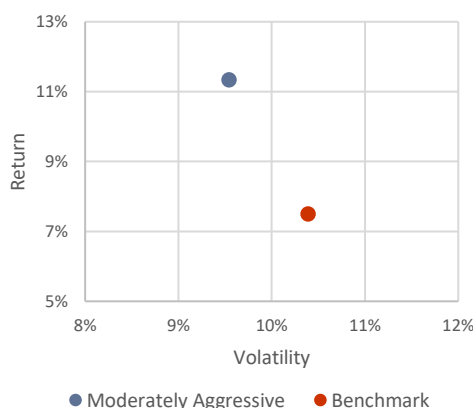

The portfolio manager will invest in a diversified portfolio of assets including equities, bonds, commercial property and cash to deliver long-term returns without compromising investors' tolerance for risk.

The portfolio manager will invest in low-cost passive strategies that are designed to track the performance of indices such as the S&P 500 Index and the Barclays Global Bond Index to give exposure to a variety of asset classes across a diversified range of global markets.
