Control your renewal operations

With your own renewal system, you have complete control over you renewal operations.

How does it work?

This is your central management system for all your clients' patents, designs, and utility models renewals. From the platform, you can look up patents using yours or your client's references, as well as annuity year, invoice due dates, etc. For instance, your administrators can rapidly look up a client status and see whether there are patents that are pending instruction or any payments that are coming up.

With a full digital papertrail, as well as double confirmation when changing instructions, it is easy to ensure the chain of responsibility and avoid the risk of supplying incorrect instructions.

Patentrenewal.com ApS

Active patents

Welcome, to your active patents overview, which contains all of the patents that can be renewed in your portfolio. To see your archived patents, go to [Archived patents](#). To see all patents that are being verified by our team of administrators, go to [Verifying patents](#).

Control over payments and actions

You can rest assured that you will always be on top of your clients' renewal schedule.

How does it work?

We will notify you in due time if a client is late in providing instructions or payments. As a minimum, you will have 15 days to contact the client and resolve the situation.

Standard renewal schedule

4 months	3 months	2 months	1 month	Renewal date	Past renewal	Confirmation
We notify the client and/or you directly. (Including price estimate.)	We invoice the client and/or you directly. The invoice is due within 30 days.	We receive the payment from the client and/or you.	Margin for handling time and for delayed payments.	patentrenewal.com pay the annuity at the PTO when we receive the payment and the explicit instruction.	patentrenewal.com issues a confirmation of payment.	patentrenewal.com sends a renewal confirmation containing a link to the national databases and/or official receipts.

Streamline and automate accounting

You can facilitate your and your clients' accounting by dividing payments into cost centres and personalising the content of invoices to your needs.

(in cooperation with Example Company LTD)

Proprietor/patentee: Example Company LTD
patentrenewal.com Customer Ref.: example-company-ltd

This invoice and deposit request has been issued for the following 2 patent case(s), specified on the next page(s).

Flexibility that fits your existing workflows

You can centralize the management of your clients' renewal payments while enabling client specific workflows and schedules. For a detailed description of the onboarding and expansion stages, see the Onboarding Requirements document.

How does it work?

You can choose whether you want to be responsible for receiving instructions from your clients, or grant them accessibility to instruct renewals online. With the same flexibility, you can decide if you want to retain exclusive contact with all your clients, or have us fully support you with direct client notifications and invoices on your behalf.

Lastly, our schedules are flexible and you can decide the cadence of invoices and notifications so that your clients experience no service or workflow disruption.

Client workflow overview

Easily manage all your clients' schedule of fees as well as all workflows and default settings (i.e auto-renew) from your client administration panel.

Efficiency growth

All our customers experience a steep growth in efficiency thanks to a more intuitive and leaner way of implementing their same workflows.

“Patentrenewal.com brings a 10x multiplier in terms of both ease of use and speed of use. We’re able to quickly and easily execute on renewal instructions, and transfer relevant and new case data.”

Gerard van Walstjin
Managing Partner at Nordic Patent Service

Full IP renewal service

“They take full responsibility and make both me and my partners feel totally at ease, knowing that everything concerning patent renewals is well under control and easily managed by our administrators. They emphasize focusing on total yearly costs reductions instead of “just” talking about fees, which I find is spot on and what every company needs to be fixated on. Lastly, I always receive effective expediency and fast response time. Patentrenewal.com has my highest recommendation for any patent holder or IP law firm.”

Peter Koefoed
CEO at Inspicos A/S

Deeper client relationships

Offering your clients a more competitive service will help you positively differentiate and strengthen your position to fend off competitors and attract new business.

“Changing to patentrenewal.com has saved us more than 50% on our yearly patent annuity costs and at the same time given us a very helpful overview of portfolio, cost and timing. This is an overview we could not easily obtain with our former provider. The level of service is great and the transfer of patents has been easy. I would absolutely recommend patentrenewal.com”

Thomas Binzer
VP R&D at Sophion Bioscience A/S - client of IP law firm using patentrenewal.com
