

EarthRenew Upsizes Private Placement and Closes Final Tranche

TORONTO, Feb. 20, 2020 -- EarthRenew Inc. (CSE:ERTH) ("**EarthRenew**" or the "**Company**") is pleased to announce that, as a result of increased investor demand, it has increased its previously announced non-brokered private placement financing of common shares from gross proceeds of \$2 million to \$2,328,100 (the "**Upsized Offering**") and it has closed the second and final tranche of the Upsized Offering (the "**Final Tranche**"). For more information on the Upsized Offering and the closing of the first tranche, please see the Company's press releases dated October 21, 2019 and November 28, 2019, respectively, which are available under the Company's profile on SEDAR at www.sedar.com.

Pursuant to the Final Tranche, EarthRenew issued 32,860,000 common shares (the "**Shares**") at a price of \$0.05 per Share for gross proceeds of \$1,643,000. The Shares issued in connection with the Final Tranche are subject to a statutory four month hold period, which expires on June 21, 2020. Finder's fees were paid in connection with the Final Tranche in accordance with the policies of the Canadian Securities Exchange consisting of aggregate cash commissions equal to \$76,510, representing 7% of the gross proceeds in respect of certain subscriptions, and 1,530,200 finder warrants ("**Finder Warrants**"), representing 7% of the shares issued in respect of certain subscriptions. Each Finder Warrant entitles the holder thereof to purchase one common share at a price of \$0.10 per common share for a period of 24 months, expiring on February 20, 2022.

The net proceeds of the Final Tranche are expected to be used for costs incurred for purchasing equipment, engineering and pilot projects and general corporate purposes.

About EarthRenew

EarthRenew is a low-cost sustainable power-generation company with a patented production process that converts livestock waste to nutrient-rich, slow-release pelleted organic fertilizer. EarthRenew converts natural gas to electricity from an industrial-sized gas turbine which it intends to capitalize on through various revenue drivers. These include selling surplus electricity to the electrical grid and to cryptocurrency miners which can co-locate on site and to dry manure feedstock to produce high value organic fertilizer. The Company has a commercial scale operation in Strathmore, Alberta.
