

Driving Directions to Smoothstone Lake Lodge:

From Saskatoon,

Head North from Saskatoon on Highway #11 towards Prince Albert. This stretch takes about 1 1/2 hour.

Turn left onto Highway #2 going North. You will stay on #2 right through Prince Albert.

Prince Albert is a great last minute supply run. I would suggest that you make sure that you are full on fuel here as you will only pass a couple more gas stations north of town before you get to the lodge. We also do sell fuel here at camp. As you are coming into town on the left hand side there is a McDonalds and Canadian Tire store. This is a great spot to pick up any last minute supplies like fishing tackle, repellent, ect. There is also a Wal Mart farther into town. We will have lots of water and other beverages in camp but if you like a certain soda or anything, this would be the place to pick things up. We have got all the hunting and fishing licences in camp.

From Prince Albert you will continue North on Highway #2 for about 120 km. About 1 1/4 hours. You will be turning left or West onto the #916. This road is called the Elaine Lake Road. It is a gravel road. Before you leave the highway if you could phone and leave a message on our phone (306) 832-2053 telling us what time you are turning onto the gravel that would be great. This is usually where people have their last cell service.

You will take the #916 for about 90 km till you come to a junction where you either have to turn either left or right. You will make a right hand turn here onto the Charbonneau Road. or the #917. Shortly after you turn right you will see our sign. You are now only 17 km from camp. Our driveway is on the right hand side. You will see the signs.

From Regina just head north on Hwy #11 through Saskatoon and follow the rest of the directions from there. This is by far the best route as far as highways go.

If you would like you can also take Hwy. 12 north from Saskatoon to Blaine Lake. Turn right onto Hwy 40 to Shellbrook. At Shellbrook you will turn left onto Hwy 55 and go through Canwood and Debden. About 30 Km past Debden you can turn right onto the 922. This is a gravel road. After about 100Km the road will become the 917 and you will see the signs coming into camp. On this run, Debden or you could run into Big River for your last fuel/supply stop. Hope this is all clear and we will see you at camp.
