PROFESSIONAL EXPERIENCE

Redko | Remote | Sept 2020 — Present

UX/UI Design Intern

- Designed mock-ups, functional wireframes, product architecture, page flows and screen layouts for multiple clients

Fini | Remote | Aug 2020 — Present

Product Design Intern

- Led UX and IA design for Fini's new native iOS app
- Collaborated in a cross-functional team directly with the product manager and development team
- Conducted competitive research, user interviews, and usability testing
- Created a site map, delivering low-fidelity mockups to high-fidelity prototypes
- Documented technical specifications for all interactions

B-STEM | Remote | June 2020 — Sept 2020

UX/UI Designer

- “Pioneer wireframer”, designing the user experience for a new educational and professional development platform for young high school students
- Collaborated with other designers to create and utilize a comprehensive style guide
- Quickly designed new web screens and reiterated existing screens in weekly design sprints, consistently sending high-quality deliverables ahead of schedule
- Ensured mock-ups met both visual and textual branding standards
- Conveyed design concepts and deliverables to sponsors through remote presentations and documentation

Hack for LA | Remote | April 2020 — Aug 2020

UX/UI Design Volunteer

- Participated in weekly meetings with a cross-functional team focused on agile methodology
- Collaborated with team members to create a comprehensive style guide
- In charge of redesigning multiple existing pages, designing new pages, and redesigning the mobile navigation
- Use of GitHub for project management
