

01)

Remove the activity screen. Most users found it redundant

02)

The edit buttons were confusing for people. Remove them and have a edit all button on the date plans.

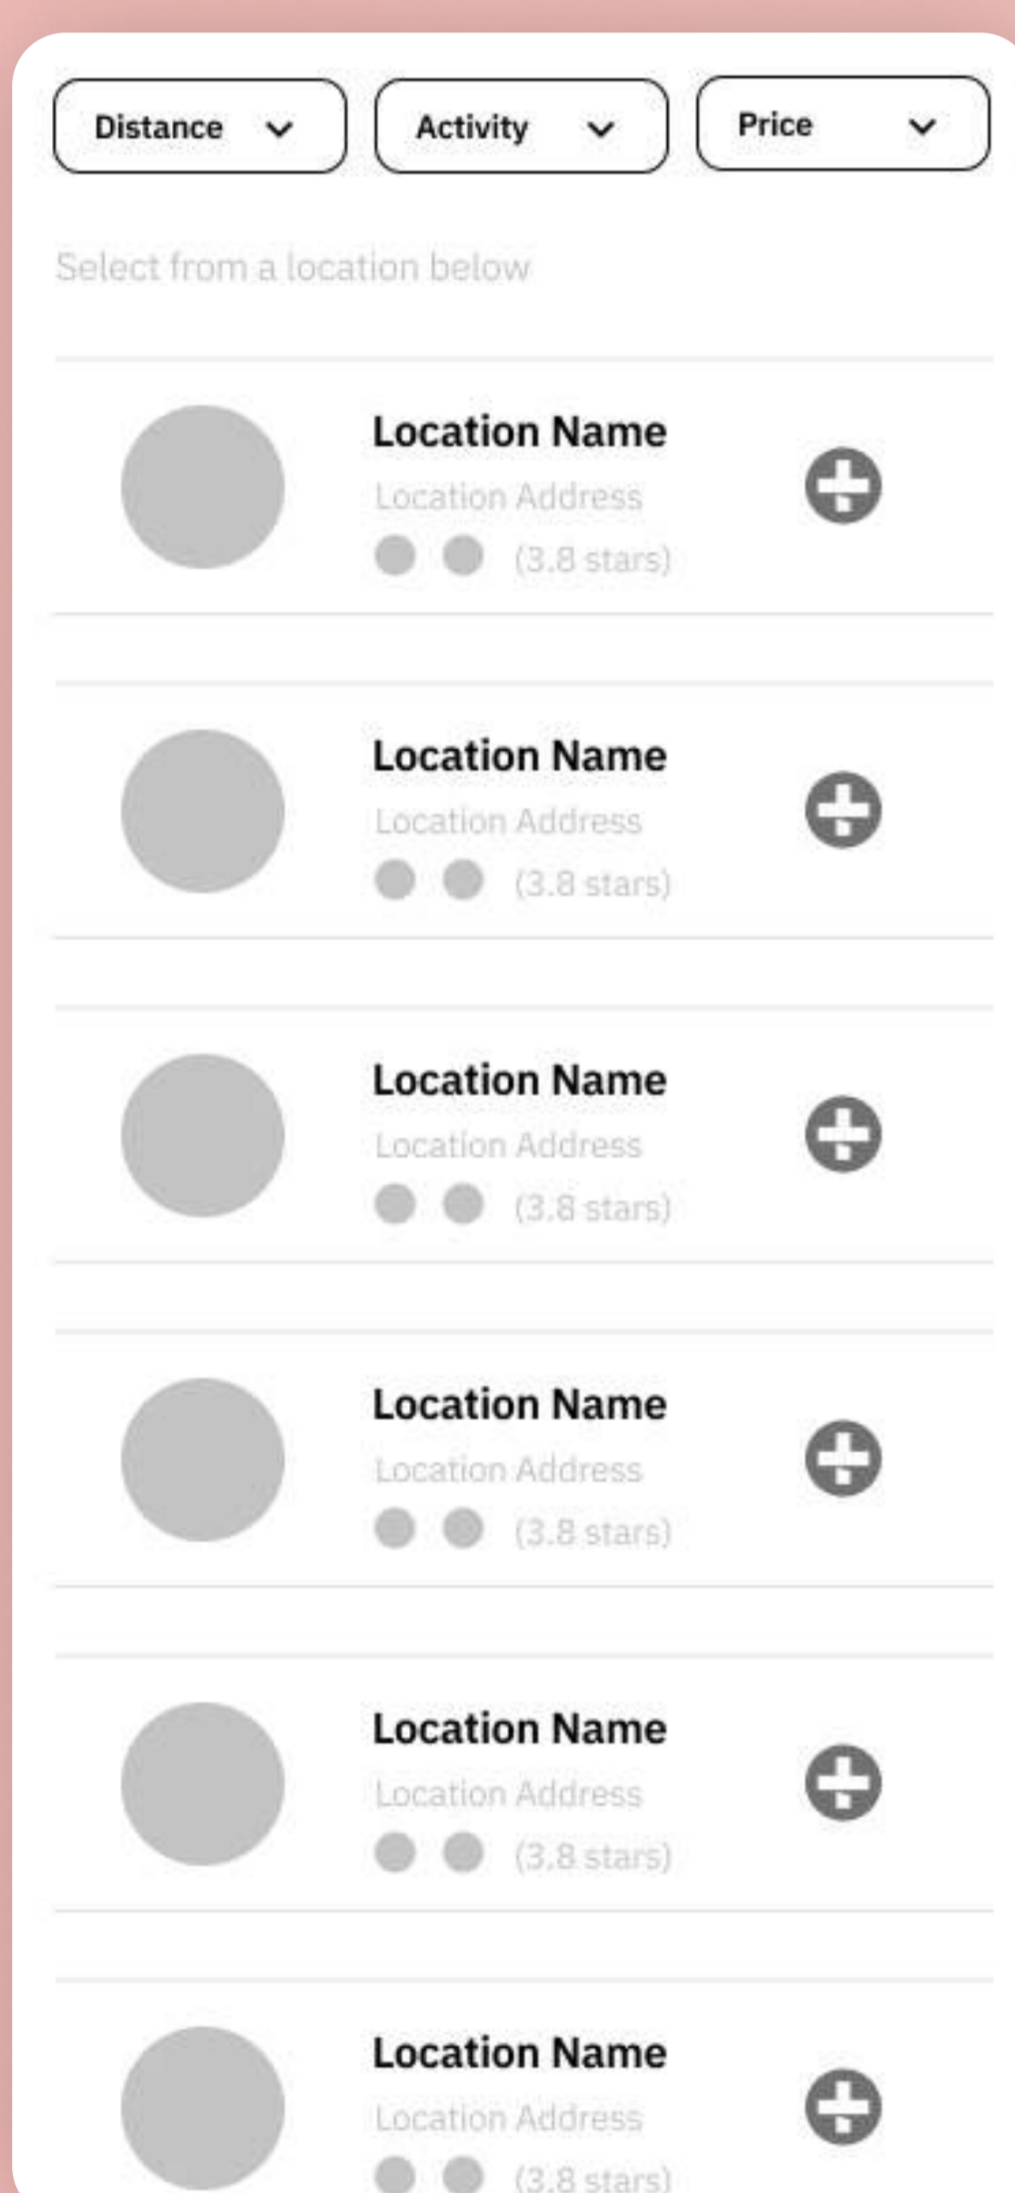

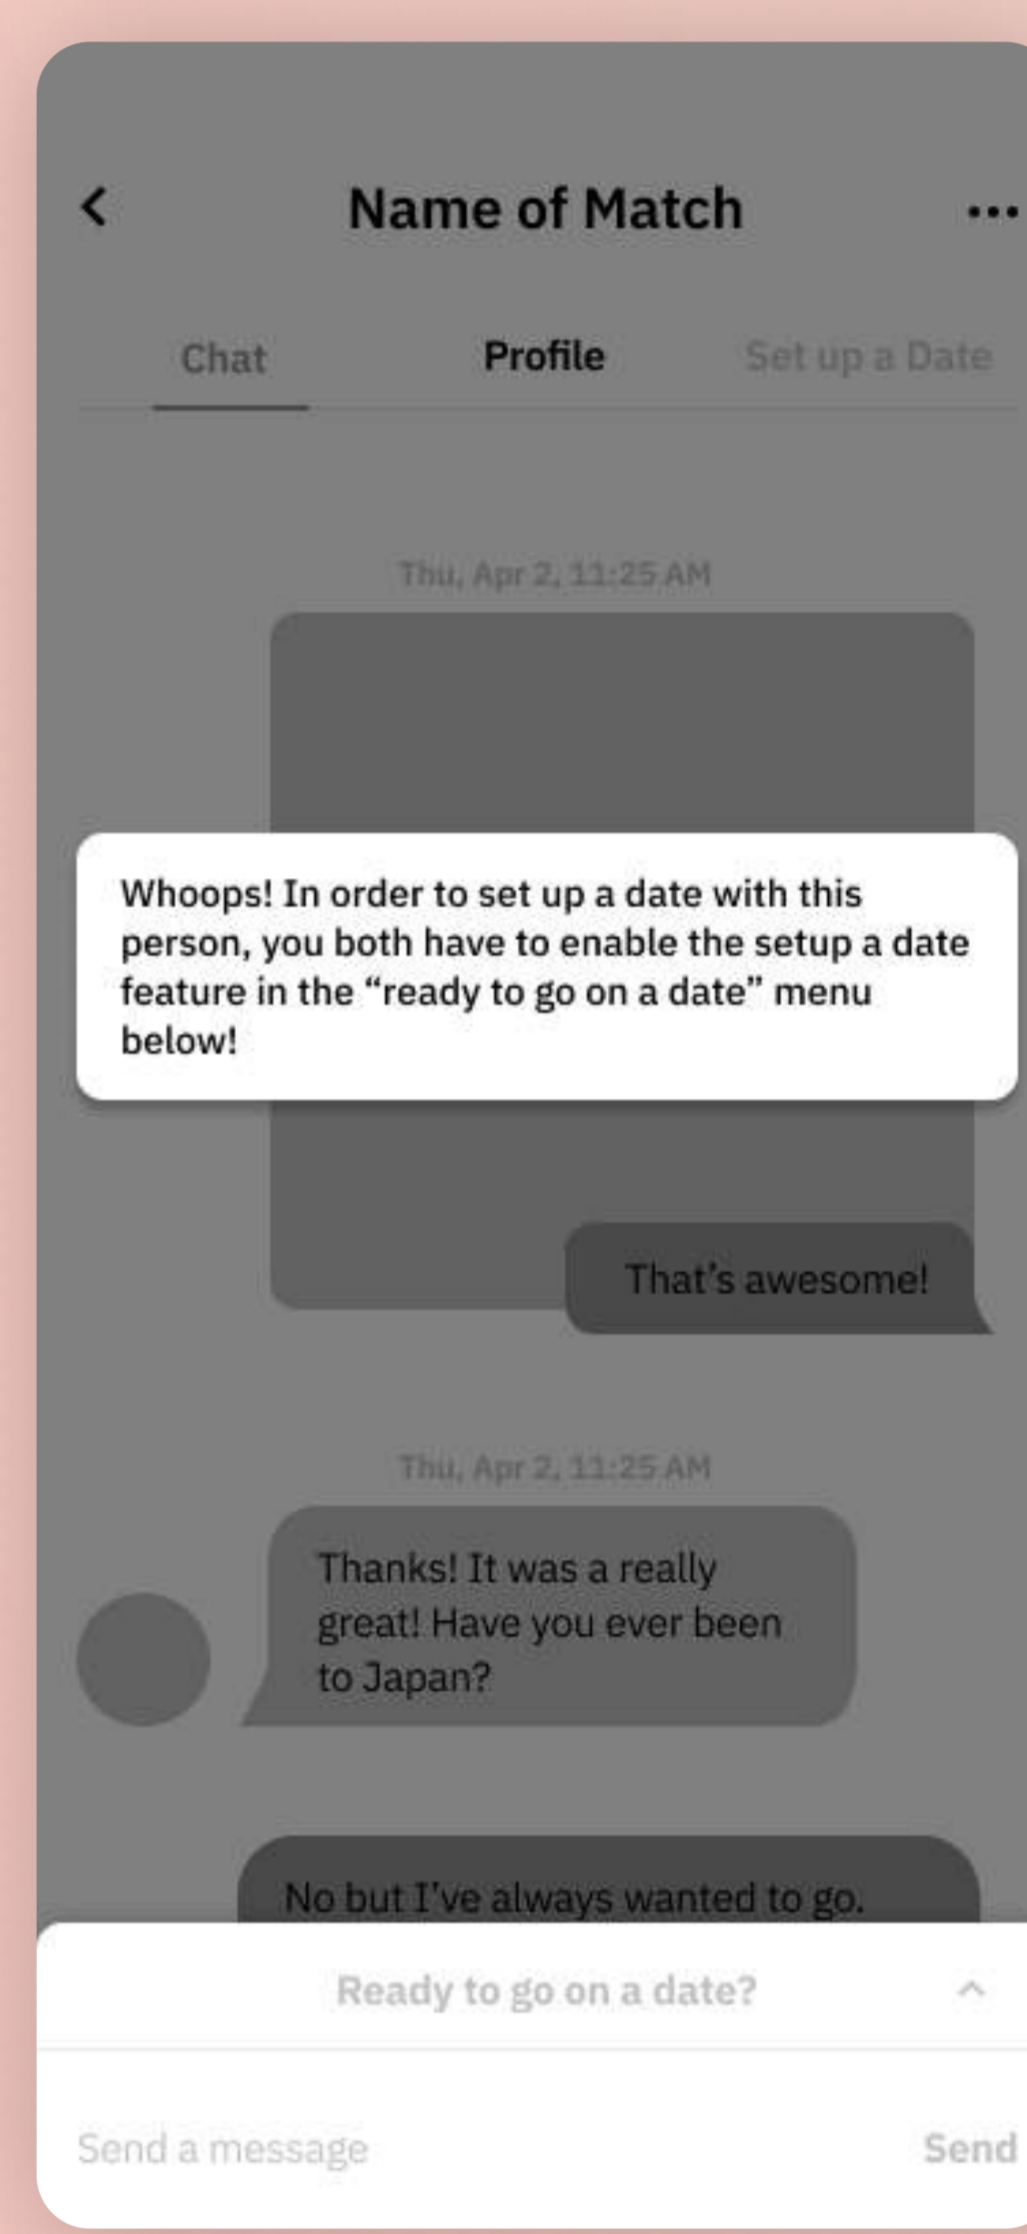

03)

Remove the search bar from the set up a date screen. Users didn't understand it's purpose and felt it was in the way.

04)

Add the "setup a date" enable button to the error message.

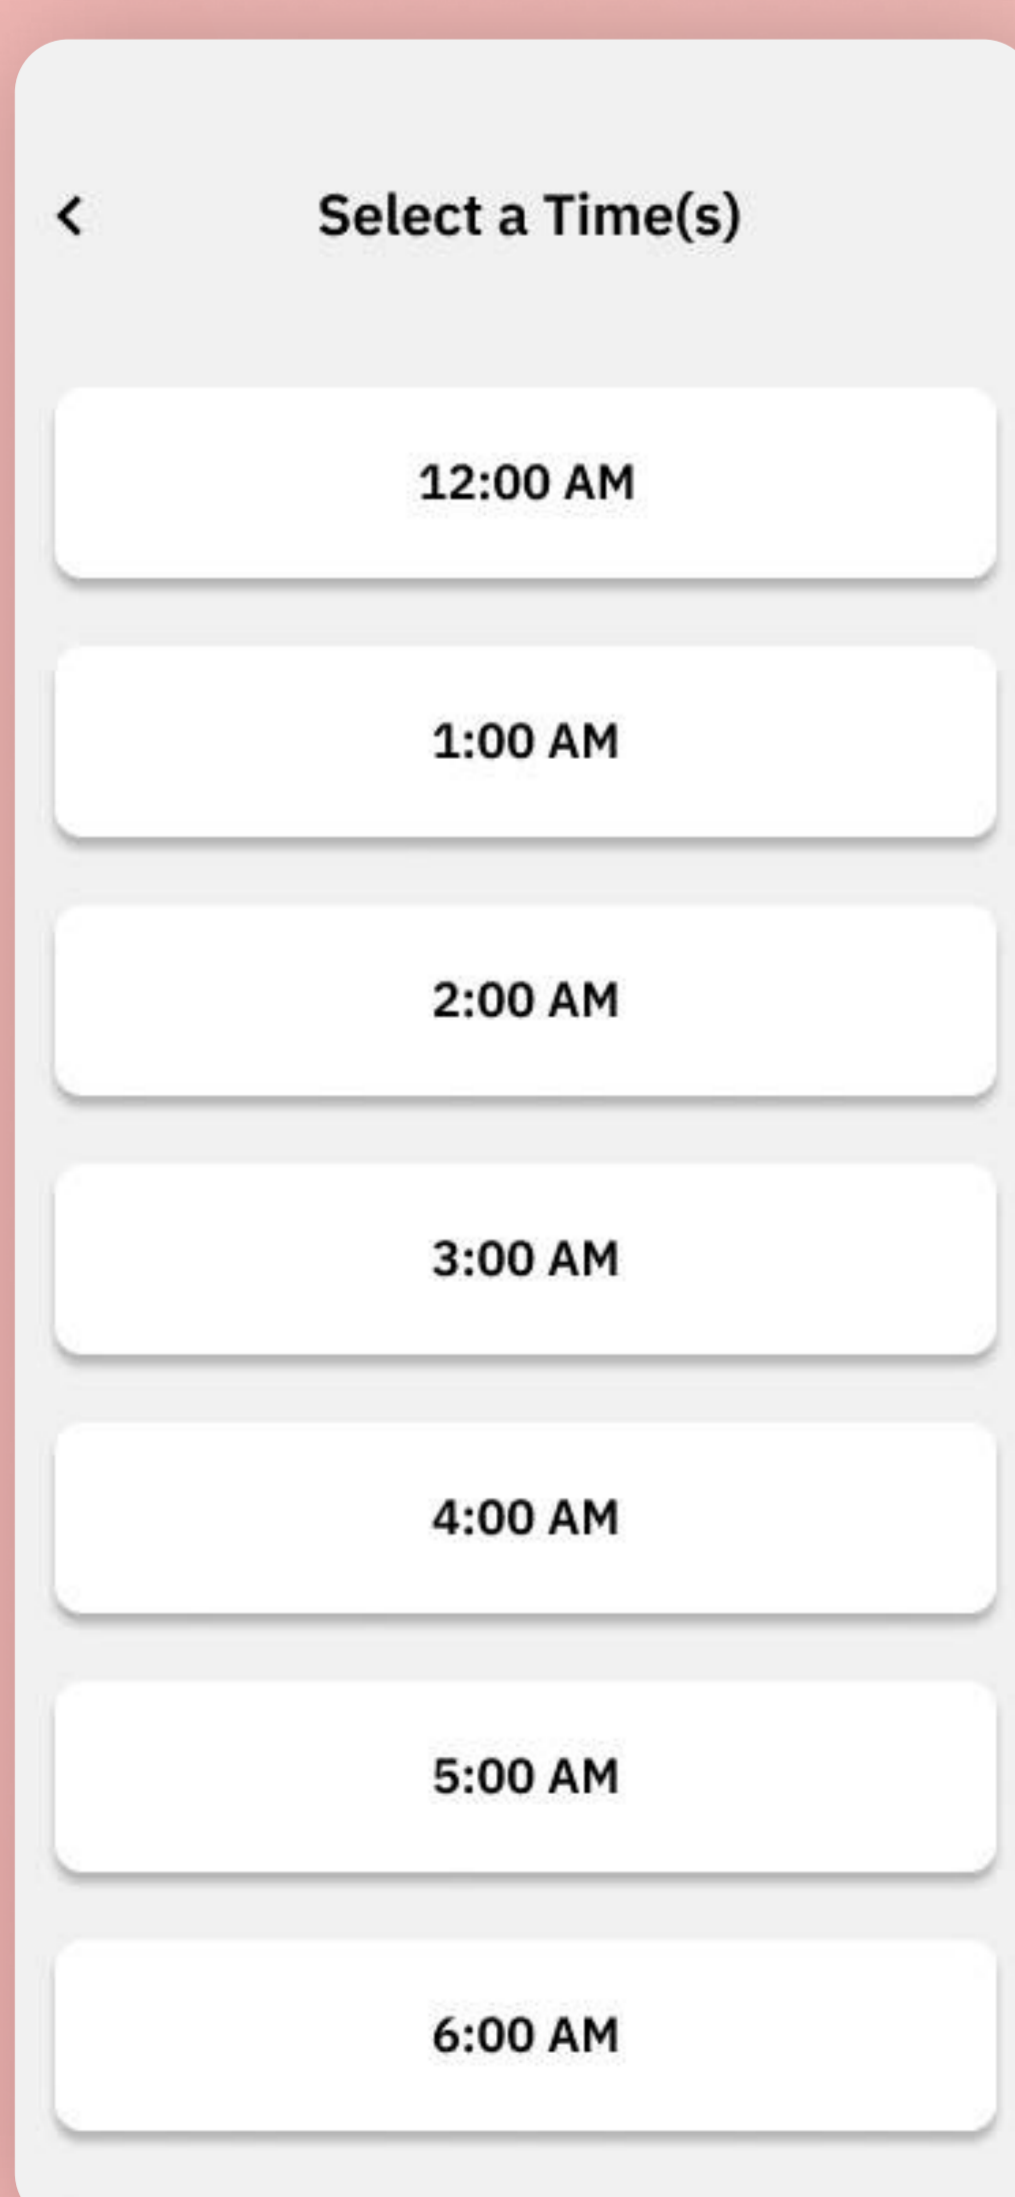

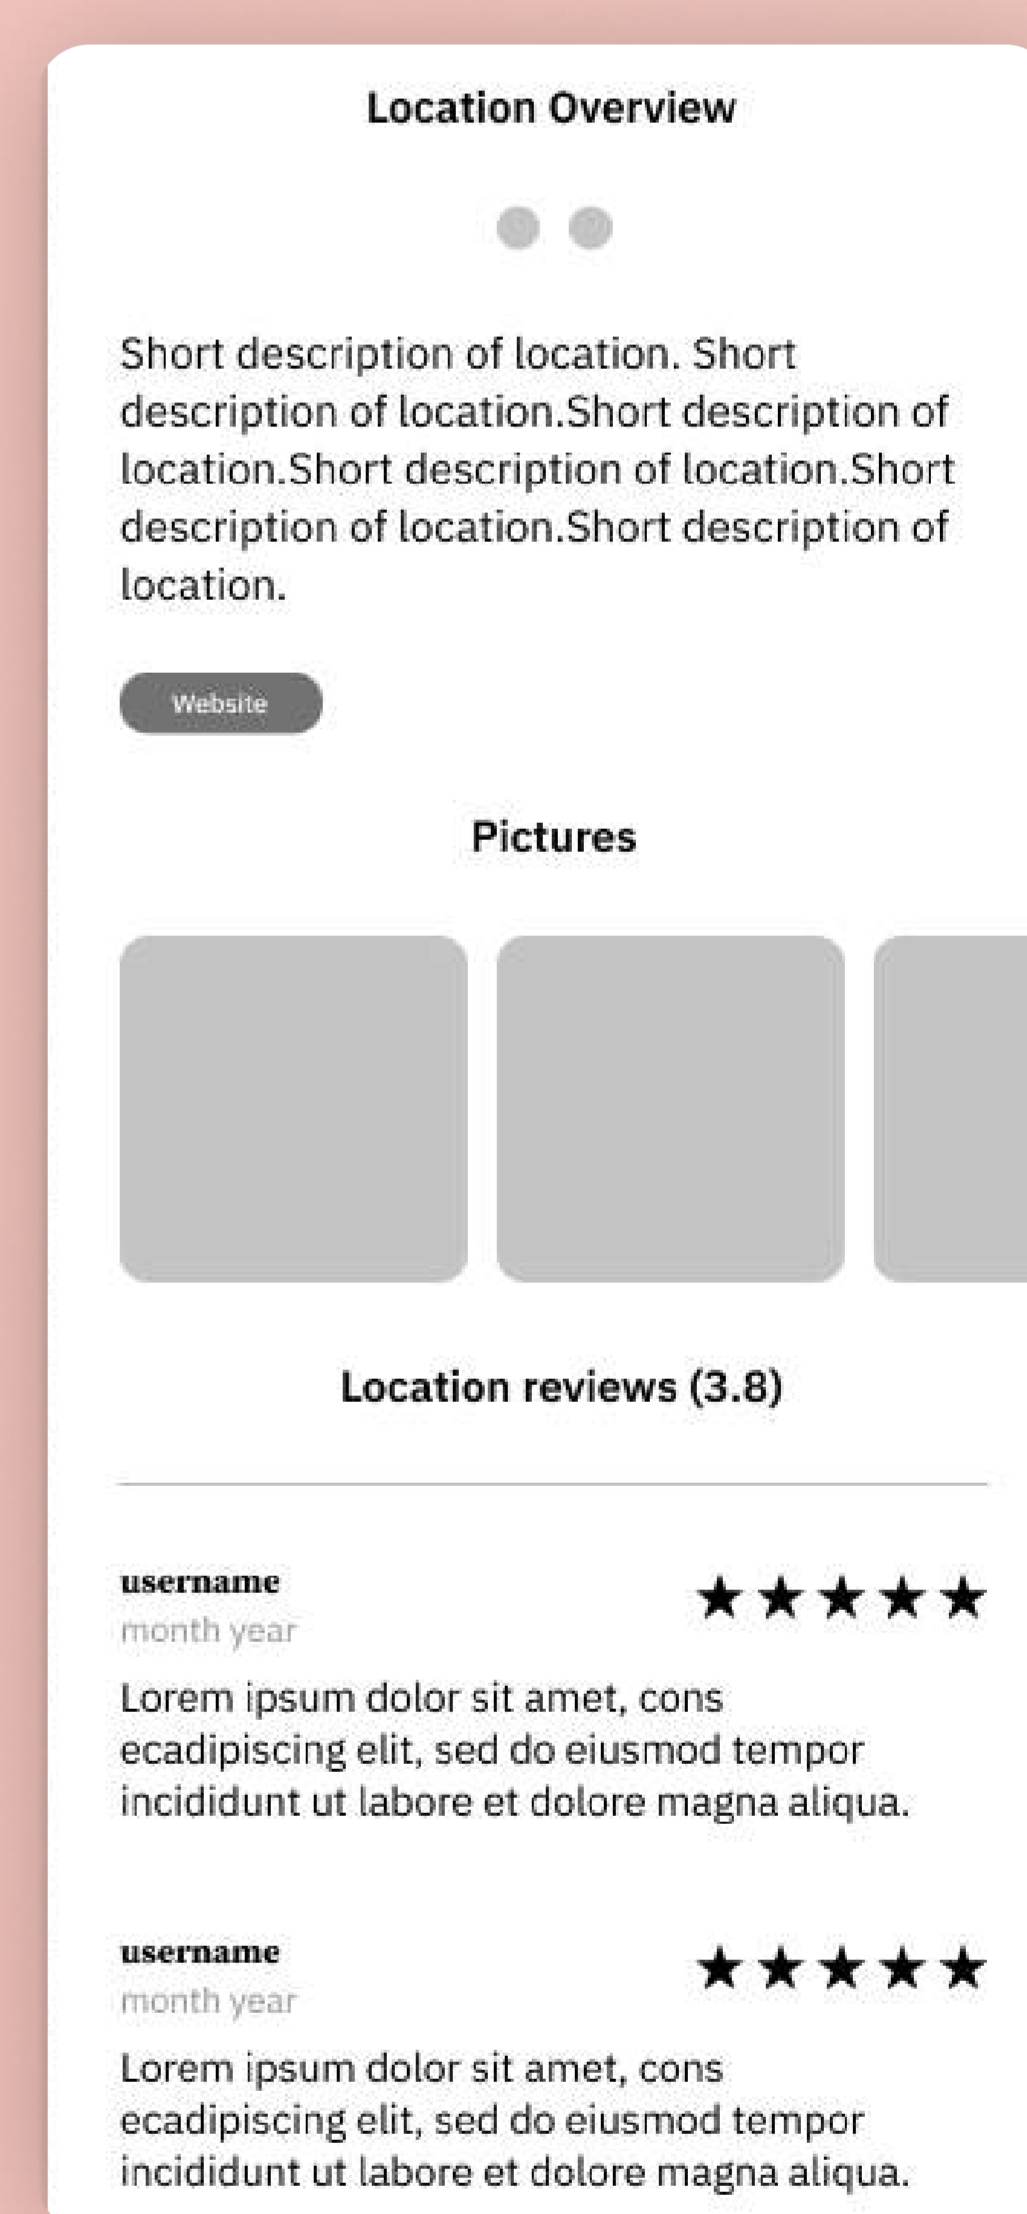

05)

Location Screen
 a) 'Equidistant' to casual wording
 b) Allow users to tap the location to add
 c) Replace the plus button with a see more button
 d) Have a way to navigate by map

06)

Location Popout
 1) Put buttons to Google and Yelp
 2) Put tags with more information
 3) Put a phone and menu button
 4) Add button is at the bottom

07)

Time screen
 1) Put popular date times at the top
 2) Also include half hour options

08)

Put a pending section in the 'invites' page
