

Home Screen

Home screen of the app with the highlighted items of the museum showcased at the top

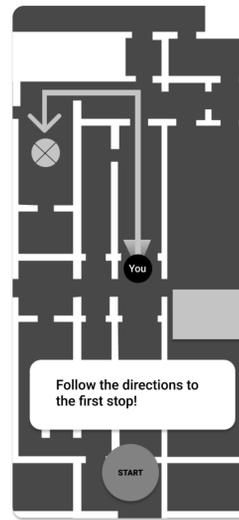

Tours

Overview of the tours on offer at the museum

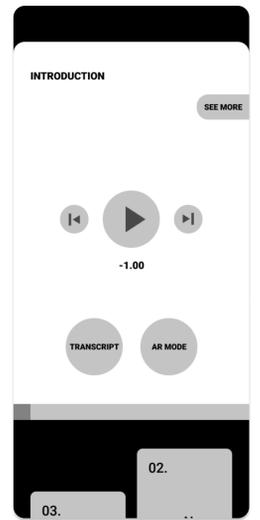

Specific Tour

This is the beginning of a specific tour

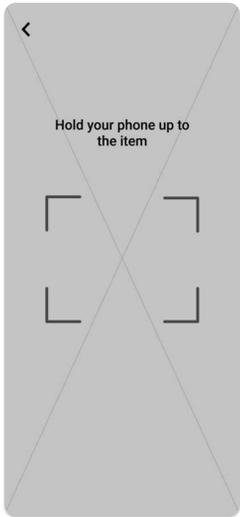

Tour Directions

On a tour, you will be asked to move to different pieces and this screen allows you to follow directions (dot will move with you)

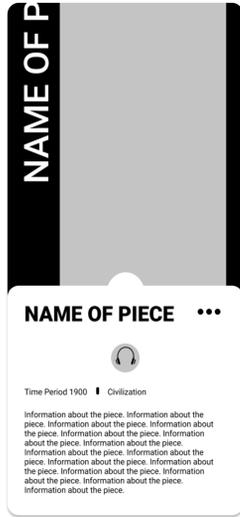

Audio Tour

This is a piece on the audio tour where you can access the audio, transcript and AR Mode

AR Mode

This section allows you to use your phone to find piece information or uncover secrets of the pieces

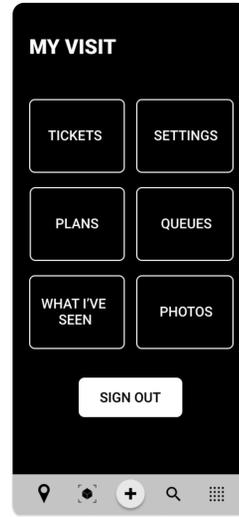

Piece Screen

This screen showcases more information on pieces in the museum, it allows for audio components as well

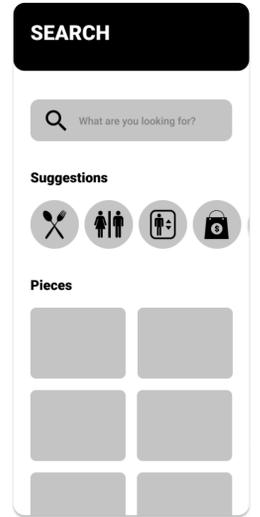

Menu

This is the menu for the app

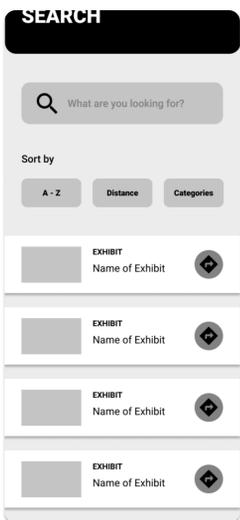

My Visit

This screen allows you to access specific screens relative to your account at the museum

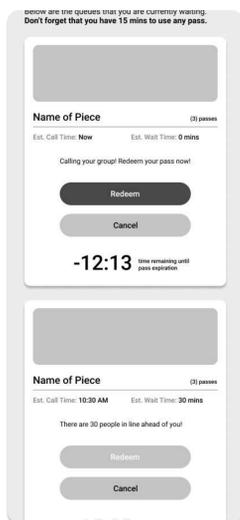

Search

This allows you to search the museum's app for whatever you're looking for. Includes map iconography and piece images

Search Results

This screen showcases search results, with sorting ability and quick access to a directions button

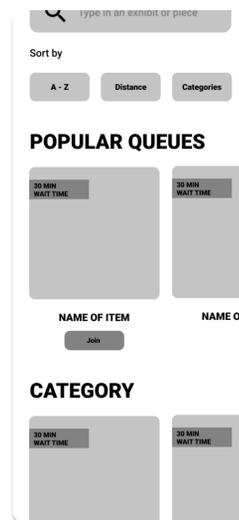

Queue Screen

This screen allows the user to view their active queues and have the ability to sign up for a new queue

Queue Pass

This is the queue pass that a user will receive when they hit the redeem button

Join a Queue

This screen allows users to join new queues by either searching or looking through recommended queues

Exhibits

This screen is an overview of the exhibits on offer at the museum

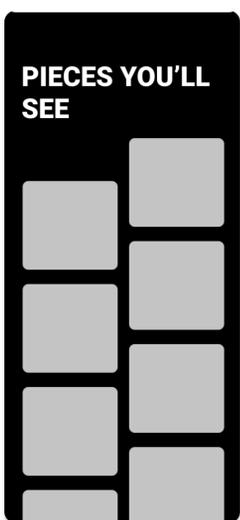

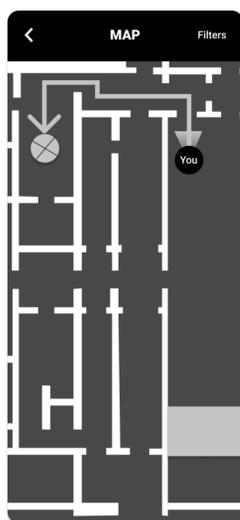

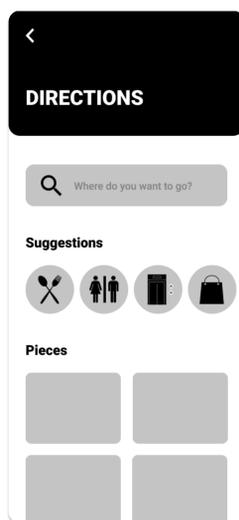

Exhibit Screen

This screen looks very similar to a tour screen

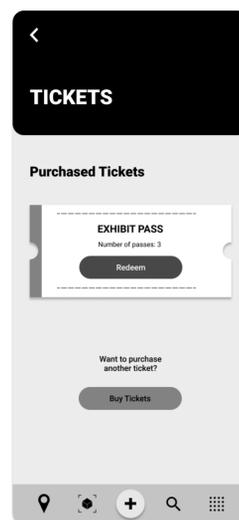

Directions Map

This screen will appear when people ask for directions to something in the museum. It gives them a custom map showcasing where to go

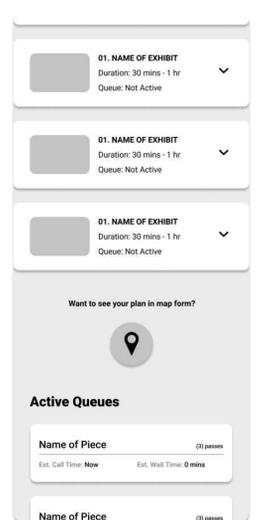

Directions

If people use the menu to ask for directions, they will come to this page (looks similar to search page)

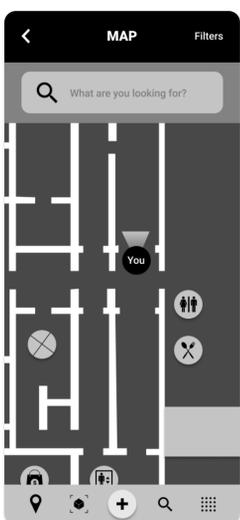

Tickets

While The British Museum is free, some exhibits are paid for. Therefore, I built a place for those tickets to live

Plans

This screen allows users to plan their visit and create a plan (either custom or recommended)

Map

This map will be based on GPS and showcase where you are at all times

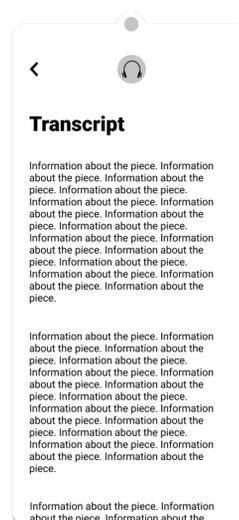

AR Map

This version of the map allows you to wander the museum while looking through your phone and click on things as you go

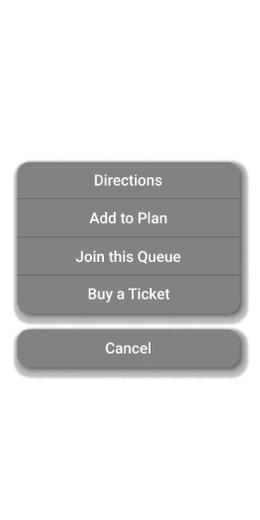

Language

This popout would appear at the beginning of the app asking you to pick your language

Transcript

All audio components have the ability to access the transcript

Quick access Menu

When you hit the middle button on the nav, this menu will appear
