DATASHEET

Custom Project

Make your *dream home* complete with *smart home automation* and control technology.

Use *one mobile app* to control lights, media, security and much more.

Customise your solution to match your home designs and family needs.

TECHNOLOGY SHOWROOMS

Come and see live demonstrations of all our Smartlife home technology solutions and experience for yourself what can be achieved in your home.

North Shore, Parnell,
East Tamaki, Tauranga

SMARTLIFE

hello@smartlife.nz
www.smartlife.nz

Safety & Security

The motion or flood sensors will trigger the alarm siren, personal messages or alerts, via the Smartlife App. View the cameras to see what is happening remotely.

The video intercom lets you see who is visiting and answer whether you are at home or not.

Connect & Control

Turn on and off and schedule lighting circuits. Control switches remotely and view device status from the Smartlife App.

Open and close your garage remotely for delivery or neighbour access.

Allocate access to the various smart controls across your registered family members/friends etc. (as many users as you need).

Comfort

Play your favourite movie, song or online media on any screen or device in your home.

Set the thermostat and control your heating system at a touch of a button on the Smartlife App.

Define popular 'modes' for your smart home and enable them with one click on the Smartlife App.

- 🕒 Movie mode
- 🕒 Good night mode
- 🕒 Away mode, etc.
- 🕒 Dining & entertainment modes

Technology Options

Choose the combination of automation devices that create your dream home.
