To Whom It May Concern
JUSTICE FOR MYANMAR

Subject: Clarification for Facebook Post from Justice for Myanmar - 11-Feb-2021

Letter No: JFM-RPL-001 Rev B
Date: 12th February, 2021 (Friday)

I am Htut Htut Daniel, Managing Director of SINGA Systems Co., Ltd.

With recent Facebook post from Justice For Myanmar, I am writing this letter to clarify the background of our company SINGA Systems to you.

SINGA Systems Co., Ltd was established in 2016 with myself and my close friends who have studied in Singapore together. Hein Htet also studied at Singapore Polytechnic together with me in same academic year (2005-2008). After graduating from Singapore Polytechnic and some working experience, I had planned to set up my own Process Engineering and Fabrication business in Myanmar together with the help of small funds from my friends who are currently BOD of SINGA Systems. Since Hein Htet, as a young graduate himself, looking to start a business, was interested in the business direction of SINGA system, and being my old classmate, we have accepted him as a partner.

SINGA systems is in the business of Process Engineering related to F&B factories, Water Treatment Plant and General Industry Metal Fabrication. Since founding, we did not receive any business opportunities or favors from Hein Htet and any military-related industries projects. Along the way, in particular Year 2020, Hein Htet has expressed us different views of business direction for company which are not in line with other BODs and myself. Therefore, we have fully cashed back all of Hein Htet's shares from SINGA Systems.

At the moment, we are working as Design Contractor under JICA Funded Town Water Supply Program for Patheingyi City and Meiktila City under the authority of Department of Rural Development at Ministry of Agriculture, Livestock & Irrigation.

I would like to emphasize that SINGA Systems does neither engage in any military-related businesses nor benefit from any military related partnerships. None of us, the Board of Directors, are from high-profile or rich backgrounds and in fact, SINGA is a small business that has been struggling to survive year by year. Additionally, the political standing of SINGA BODs is aligned with People of Myanmar, hence we are very saddened that our personal information were published in your list.

Therefore, I would like to request Justice for Myanmar to kindly remove our company name from the list which was posted in social media immediately. Should you need any clarification, we (SINGA Systems) would gladly provide it with full transparency.
