## **HYGGE is a Danish term pronounced “Hue Guh”**

It means the essence of what is good in life:  
Warmth, happiness, enjoyment, comfort and peace  
Whether warmed by the fire or warmed by the heart.

The loving acceptance and enjoyment of the moment  
Alone or together, away or at home  
Ordinary or extraordinary  
With family or friends

Whatever it is or wherever it may be, it is always special,  
Always cosy, always gracious and charming
