Teamwork Unleashed

Urban Microsoft Teams Rooms.

Re-imagine the Meeting

Collaboration is more than just “video”. A Microsoft Teams Room is a window into the wider workplace, richly integrated with the tools, policies, and processes that businesses need day-to-day.

Urben's engineering expertise makes it easy to unleash the full collaborative capabilities of Microsoft.

The Best Collaborative Experience

The only triple-screen solution for **Microsoft Teams**.
The immersive executive-style environments allow you to communicate effectively with others and focus on the valuable data that ultimately drives business decisions.

Urban's expertly-engineered systems combine the best of **Teams** capability, with the industry's best immersive video and data technology.

Urban Trio ranges from 55"-98"

A Whole New World of Teamwork

More than just a screen share. **Urban** leverages **Microsoft Surface Hub** technology to create collaborative suites perfect for Project/Situation Rooms, or any team-based collaboration and idea generation.

Combine the benefits of intuitive touchscreen and local sharing with **Teams**. Boost productivity and creativity, whether participants are on-site, virtual or a combination.

Best of Both Worlds

Navigate the hyper-connected meeting space with ease. The flexibility of **Urban** dual-screen systems makes them perfect for anything from a four-person environment right through to large boardrooms.

Urban Dual ranges from 55"-98"

Packs a Punch

Create awesome global standards for your **Microsoft Teams** estate. Customisable and scalable, **Urban** single-screen solutions allow you to bring **Teams** to any location, whilst still ensuring a consistently great user experience.

Urban Single ranges from 55"-98"

Urban manage the logistics of rollout from planning to execution, ensuring you get a sleek and versatile **Teams** solution, with minimal onsite disruption.

Small, but Mighty

Enable the full **Microsoft** workplace experience, anywhere. No matter how big or small, power and data connections are all that's needed to run an **Urban** solution featuring **Teams**.

Urban Lite ranges from 43" and 49"

What would take days of pre-configuration and integration is done off-site, with our smallest all-in-one systems popping up in **just a matter of minutes.**
