

# Actionable Digital Intelligence

Delivering True Social Media Audience & Influencer Insights via our fully interactive, AI drive analysis application

## Broadest Collection of Social Media Data

PiiQ provides complete real-time actionable intelligence across social media. We collect more data on more platforms than any other product in the market.

### Precision Audience Analysis

PiiQ scores profiles and audience attributes, relationships, and behaviors for authenticity, trust, affinity, and influence potential. Adding context to content.

### Real-time Generated Intelligence

PiiQ software is more than another data on glass solution, providing AI-powered software that dynamically drives intelligence based on user interaction.

### Digital Life Pattern Analysis

PiiQ fills "information gaps" through our social media life pattern analysis providing a more comprehensive picture of influencers and true audiences.
