

Job Title: Electrical Controls Engineer

Location: Whitney Point, NY

Job Type: Full Time

Green Machine Sales, LLC. is currently looking for an Electrical Controls Engineer to join our expanding team. We are an industry leader in the design and manufacturing of large-scale recycling components and sorting systems. The recycling industry is constantly growing and we need individuals who are hands-on, and looking to advance with a company that has room to move upward. The individual will be programming, testing, and troubleshooting the design and implementation of control systems at our research and development facility.

Roles & Responsibilities

- Knowledge of Rockwell Automation
- Working Knowledge of AutoCAD Electrical
- Strong problem-solving skills with the ability to troubleshoot systems software
- Excellent verbal and written communication skills
- Ability to work as part of a team and independently
- Establishing and keeping deadlines and goals
- Manage multiple detail-oriented tasks
- Travel is required to customer sites for systems commissioning

Desired Qualifications

- BS/MS in Electrical Engineering, Information Technology, Computer Science or related
- 5 years of experience in Machine Controls and Automation
- Able to obtain a US passport
- Valid driver's license and a good driving record

Benefits:

Health/dental/vision insurance, paid time off (PTO), 401k, and paid holidays.
