

# Fast and Reliable Business Valuations

Earn extra revenue and grow client relationships with **PriceBuilder**.

## What is PriceBuilder?

PriceBuilder is a DIY business valuation software for Mainstreet businesses.

We partner with Bookkeepers to make it easy for business owners to determine the value of their business.

## How it works

Enter your client's income statements for the past 3 years.

Built-in tools help you determine EBITDA and Seller's Discretionary Earnings.

PriceBuilder accesses its transaction database and calculates a business valuation.

Send the PriceBuilder report directly to your client.

*In under an hour, you can create PriceBuilder Reports for your clients*

# How PriceBuilder Benefits Your Clients

PriceBuilder reduces the cost of business valuations, which can cost over \$5,000 per report for even a very small business.

This is a significant expense for small business owners, preventing them from knowing the value of their business.

PriceBuilder is a fraction of the cost. This allows business owners to:

Discover what their business is worth

Help them plan for retirement

Benchmark their business in their industry

## What does it cost?

You can subscribe for unlimited valuations or pay per-use:

### Subscription

- \$100/month or \$1,000/year
- Unlimited valuations

### Pay Per-Use

- \$100 per valuation

Enter your client's Income Statement into PriceBuilder. Using our tables you can type or copy & paste values directly from Excel.

## 2. Normalize the Income Statement

1. Amortization - Depreciation

On your income statement, does it include a 'Depreciation' or 'Amortization' expense line?

Amortization  Depreciation  Both  None

> What is Amortization/Depreciation?

Enter in the values from the Amortization line exactly as they appear on your accountant-prepared financial prepared statement.

+ Row + Financial Year

	🗑️ ⋮ 2019	🗑️ ⋮ 2018	🗑️ ⋮ 2017	⋮ Normalization Note
⋮ Depreciation	\$ <input type="text"/>	\$ _	\$ _	Depreciation is a non-cash expense and is therefore available to the owner.
⋮ Amortization	\$ _	\$ _	\$ _	Amortization is a non-cash expense and is therefore available to the owner.

PriceBuilder guides you through a series of questions to help you calculate EBITDA and Seller's Discretionary Earnings (SDE).

### 3. Answer Qualitative Questions

#### Recurring Revenues

Is more than 75% of your revenue recurring?  Yes  No

Is 50% to 74% of your revenue recurring?  Yes  No

Is 25% to 49% of your revenue recurring?  Yes  No

Is less than 25% of your revenue recurring?  Yes  No

PriceBuilder includes a qualitative assessment of your client's business. This includes questions about your client's operational efficiency, owner dependency, financial performance, and prospects for growth.
