

Data Scientist // Computational Linguist (m/w/d)

Full-time, as of now

ABOUT US

deepsight GmbH is an IT start-up that entered the market at the beginning of 2019. Digitalization and artificial intelligence are our passions. We use AI and Machine Learning for state-of-the-art data analysis. We mainly focus on semantic text analysis, anonymization, and web crawling, deploying these services as SaaS. deepsight GmbH is currently based in Osnabrück.
