EXPERIENCE

UX Designer

Echo Me Forward, Remote

April 2020 - Present

- Leading user research to identify and resolve user pain points.
- Creating and delivering 8+ UX deliverables, including personas, use cases, scenarios, and task flows, to ground design solutions.
- Designing an end-to-end user experience through concepting, information architecture, wireframes, mockups, and prototypes.

Product Designer

Classvisa, Remote

March 2020 - Present

- Conducted 9+ hours of market and user research that helped shape the product and brand experience.
- Responsible for handling product design work of the website & mobile app from initial concept through high-fidelity designs.
- Collaborating with the product, engineering, and marketing teams to launch the site and improve the end-user experience.

UX Designer

Admiral, New York, NY

Feb 2020 - March 2020

- Researched, identified problems, and developed a UX strategy for the SaaS platform, increasing user satisfaction by 17%.
- Re-designed the platform experience, resulting in a projected 29% increase in product adoption and a 25% increase in ease of use.
- Collaborated with cross-functional teams & executives to deliver solutions that aligned with both the user and business needs.

Customer Relations Specialist

Global Property Services, Airmont, NY

June 2018 - Nov 2019

- Researched, identified, and resolved over 80 customer issues daily in an empathetic manner to ensure customer satisfaction.
- Collected and analyzed data pertaining to 250+ clients to improve the overall customer experience.
- Collaborated with 4+ internal departments to respond to challenges and fulfill customer needs by improving processes.
