

J&T Thein SICAV fund acquires the IT security company net.pointers

Prague, 30th November 2020 - Tomáš Budník and J&T Private Equity Group's investment fund realizes its second acquisition in November yet. Thus, the net.pointers company has become the first J&T Thein SICAV fund's acquisition from the cyber security segment.

Net.pointers s.r.o. operates on the market as a cyber-security specialised company since 2010. It's a pioneer in sensitive data leak prevention, sophisticated cyber-attack prevention, active DDoS attack protection, unknown malware detection and education. The company has a unique know-how in this area and you'd find especially mobile and internet network providers, large corporations, financial institutions and government bodies amongst its customers.

Tomáš Budník says about the new acquisition: *"We've decided to invest in net.pointers because of its team, with vast experience and expertise in the cyber security area. Net.pointers has outstanding references from its customers and thus, we're convinced the investment was a right way to go. Together, we will intensely co-operate on further development and expansion of the services the company has to offer."*

Net.pointers now offers products of well-known American and Israeli cyber security-oriented companies. The oncoming goal of the company under the J&T Thein SICAV fund will be development of modern cyber security services and expansion of their product portfolio. With regard to the soaring number of cyber-attacks, the company has a further space to grow in the Czech Republic and Slovakia.

"The partnership of net.pointers with the financially strong J&T Thein SICAV fund will allow us to fully embrace the planned innovations of services focused on complex cyber security solutions. Thanks to the financial background, utilisation of modern technologies and a unique know-how of our team, we will be able to reach out to the TOP 100 of companies and organisations not only in the Czech Republic, but also in Slovakia and other countries in Central and Eastern Europe," adds to the acquisition **Martin Půlpán, the CEO of net.pointers.**

About J&T Thein SICAV:

J&T Thein SICAV fund is focused on investments into the technological companies in the ICT infrastructure segment, cyber security area and cloud solutions-related app development in the Czech Republic and Slovakia. The fund was established through the partnership of technological expert Tomáš Budník, the 65% majority fund shareholder, and J&T Private Equity Group Ltd., which owns the remaining 35%. The fund was established in October 2020.
