

VIZZ FOR FACILITIES MANAGERS

During design and construction, nearly 100% of your facility's details are compiled. For the property's lifespan, you need easy access to complete information to make informed decisions and maximize efficiency. You need VIZZ!

VIZZ FOR THE LIFESPAN OF YOUR PROPERTY

Visualization

Easily access the entire history of the facility, starting with complete design and construction information along with specifications, daily reports and safety logs.

Digital Twin

Visually immerse yourself and interact with the property, equipment, furnishings and finishes. Easily access manufacturer, supplier and product information and all past and present communications.

Collaboration

See relationships between people, companies and projects, while creating and tracking RFIs and tasks. Set up reminder notifications for maintenance and replacement.

WHY VIZZ?

Improve Client Connectivity

Lower Operational Costs

Spend Less While Achieving More

Modernize Tenant Experience
