#### Recommendation Amilera Serums

After medical examination of the available test results as well as an evaluation of the ingredients used by us, we can recommend the use of the amilera serums.

The serums showed fast visible results and were characterized by a high tolerance. The users certified a high user satisfaction with the products, which also corresponded to my medical assessment.

I can therefore recommend the use of Amilera serums from a medical perspective.

A handwritten signature in blue ink, reading "Ilse Bunge". The signature is written in a cursive style with a large initial 'I'.

Dr. med. Dr. rer. Nat. Ilse Bunge, Engelstr. 37, 48143 Münster
