VITEX CEO DR ANISS CHAMI JOINS THE WESTERN CITY & AEROTROPOLIS AUTHORITY INDUSTRY SYMPOSIUM

SYDNEY, 16 December 2019 – Vitex Pharmaceuticals' CEO, Dr Aniss Chami joined the Western City & Aerotropolis Authority Industry Symposium that took place on Monday 16 December 2019 at Warwick Farm.

This full-day event brought together representatives from across government and industry partners to connect, share information and discuss how they will develop together the Western Parkland City into a productive 22nd Century City.

Foundation Partners of the WCAA (Western City & Aerotropolis Authority) such as Vitex Pharmaceuticals, are central to this once-in-a-generation opportunity. Dr Chami presented significant ideas to promote growth and innovation, drive new processes and discuss the required technologies to create an environment whereby individuals can live, work, study and enjoy a comfortable lifestyle and ensure a sustainable future in what will become Australia's third largest city.

The core of the Aerotropolis will be home to the Advanced Manufacturing & Research Precinct (AMRP); a centre for advanced manufacturing, quantum technologies, aerospace and defence industries.
