To whom it may concern,

Parker 7079 Economy White Wash Down Hose

- Product type: rubber hot wash down hose
- Product use: food area, for wash down water including with incidental contact

"Passed AsureQuality assessment for food/beverage/dairy factory food areas, incidental contact" H2485 with conditions. This assessment was prepared by Global Proficiency Ltd using HACCP principles to determine equivalence with food standards listed below. See <http://assessedproducts.asurequality.com/> This supports food Risk Management Programmes & other endorsements that may apply to this product include MPI regulated farm dairy approval, MPI dairy factory endorsement, MPI regulated non-dairy animal product approvals, EPA HSNO-OSH-environment approval (& previously AQIS).

Conditions: use for food area wash down with incidental contact.

General conditions:

- The product is to be used according to Manufacturer's Instructions, Good Manufacturing Practice (GMP), and applicable legislation.
- Usage and carry-over to food should be minimised to ensure food function or composition are not affected, that residues are within applicable Maximum Residue Limits (MRLs/MAVs or if n/a then nil or within defaults e.g.50 -100ng/kg where permitted), and that food legislation requirements are met.
- The assessment is subject to notification of change (e.g. in formulation, raw materials or instructions) and expires on 12/03/2020).
- The full report is attached for supplier review and verification. The assessment is activated by countersigning.

Prepared by Global Proficiency for AsureQuality Ltd...

Supplier:..... Date:.....

Scope and purpose of the assessment:

- Asurequality assessment is a non-regulated, voluntary, and evidential certification by the supplier demonstrating equivalence with food safety standards, and also that product instructions address hazards for staff & equipment. The assessment is independently confirmed, without prejudice or guarantee, using information submitted by the supplier or from other sources. Confidentiality of the product formulation is maintained using coded material identifiers in the report, and appendices containing confidential information are provided only to the supplier.
- Scope: NZ checks (FSANZ, US FDA 21 CFR/ NSF, Food Chemicals Codex, EPA NZ, EU, French culinary listings or related data for equivalent safety). NZ background (Animal Products Act, Risk Management Programmes. Detergent & Sanitiser Manufacturer's Code of Practice) Detergent & Sanitiser Standards and Analytical Methods. Quality Manual - Assessment Procedures
