

# Cape Independence

## Join the movement!

#LetsFreeTheCape

Security, freedom and prosperity for people of all races, cultures and religions in an independent Cape.

It's time to elect a transparent government free of corruption, incompetence and racial politics.

It's time to build our own First World nation on Africa's southern tip - The Cape of Good Hope.

It's time to stand for a better future.

Advocacy Group

# Change Is Inevitable

In order to address poverty and crime, as well as the lack of housing, healthcare and education, we **MUST** elect a government of our own choosing that will be held accountable to us, the people of the Western Cape.

The ANC government is leading us into an economic and social disaster. The Western Cape has consistently rejected their agenda, yet our democratic voice is silenced by a system where our government is not chosen by us, but despite us. We simply cannot continue to be ruled by a corrupt entity that ignores our needs.

## Who Are We?

The Cape Independence Advocacy Group is not a political party. We are a lobby group that intends to show ALL people of the Cape that you have the power to choose a better future. We are not asking you to follow us, we are asking you to stand beside us in calling for our elected leaders of the Western Cape to answer our collective call for independence, and allow us to vote in a referendum for an independent and prosperous nation.

## What Can You Do To Help?

- Spread the word, wherever possible (each one, teach one)
- Visit our “Get Involved” page at [www.capeindependence.org](http://www.capeindependence.org) and join our Telegram News Channel
- Donate funds to help drive our campaign forward
- Contact your local DA officials to request their support for Cape independence
- Proudly display our flags, car mirror socks and bumper stickers
- Download a copy of this flyer from our website, print it, share it

Public pressure is all it takes to effect positive change. In order to force our elected politicians to act, we must act in building a movement they simply cannot ignore.

## Printing Instructions for CIAG Flyers

Thank you for downloading our flyers.

All it takes to effect positive change is for a groundswell of public support to pressure our elected leaders into acting.

If just 10% of our supporters each have 50 flyers printed and distributed, we'll soon have over 200,000 in circulation!

- 1) Open the English or Afrikaans language folders included with this instruction file (isiXhosa version coming soon!)
- 2) Take the two PDF's from your chosen language folder to your local printer (PostNet etc.) One is the front page of the flyer, the other is the back page.
- 3) Ask them to print these PDF's as two-sided flyers (one PDF for each side), at A5 size.
- 4) They will tell you that the edge bleed has not been set. That is okay. The result is a white border around the flyer that we think looks good :)

The printing cost will vary between R1.20 to R1.60 per flyer, depending on the printer you choose.

Once printed, please hand them out wherever possible.

Thank you for your kind support!
