About the producer

The winery is located among the Rivers Pobra do Caramiñal, on the slopes of the Barbanza peninsula, in the band north of the Ria de Arosa, in the geographical center of the Rias Baixas.

The barbanza is included in the geographical indication Wines of Tierra del Barbanza and Iria: ensures higher quality wines.

The orientation of the vineyards to the southwest, natural viticulture and rigorous regulation, guarantees the highest quality wines from the Atlantic coast of Galicia, and recognized nationally and internationally.

The winery Between Rivers is a small warehouse, craft, but its scale, equipped with the latest technology.

The winemaking respects tradition, while incorporating some of the current enological science. We turn our attention to the naturalness and hygiene: our wines are considered "slow lightning."
