

ASPHALT PRIMER 6001

PHYSICAL PROPERTIES :

Asphalt Primer 6001 seals rusty metal as well as renews and rejuvenates roofing felts. Asphalt Primer allows the top roof coating to perform better by improving adhesion and preventing the loss of top coat oils into the base. This primer is also effective for priming rusty metal prior to installation of single-ply roof applications.

SPECIFICATIONS

Flash Point	105°F
Solids Content	45% Min.
Weight Per Gallon	6.6 lbs.
Viscosity at 77°F	50 K.U.
Dry Time at 70°F with low humidity	8 hours

Approximate Coverage Per 100 sq.ft.

Gravel Roofs	3 to 4 gallons
Metal	½ gallon
Concrete	1 gallon
Felt	1 gallon
