Digital Project Methodology

Although it is not necessarily a linear process, at UXProject the steps we are taking to develop a product / service with a digital presence look like in the graph below.

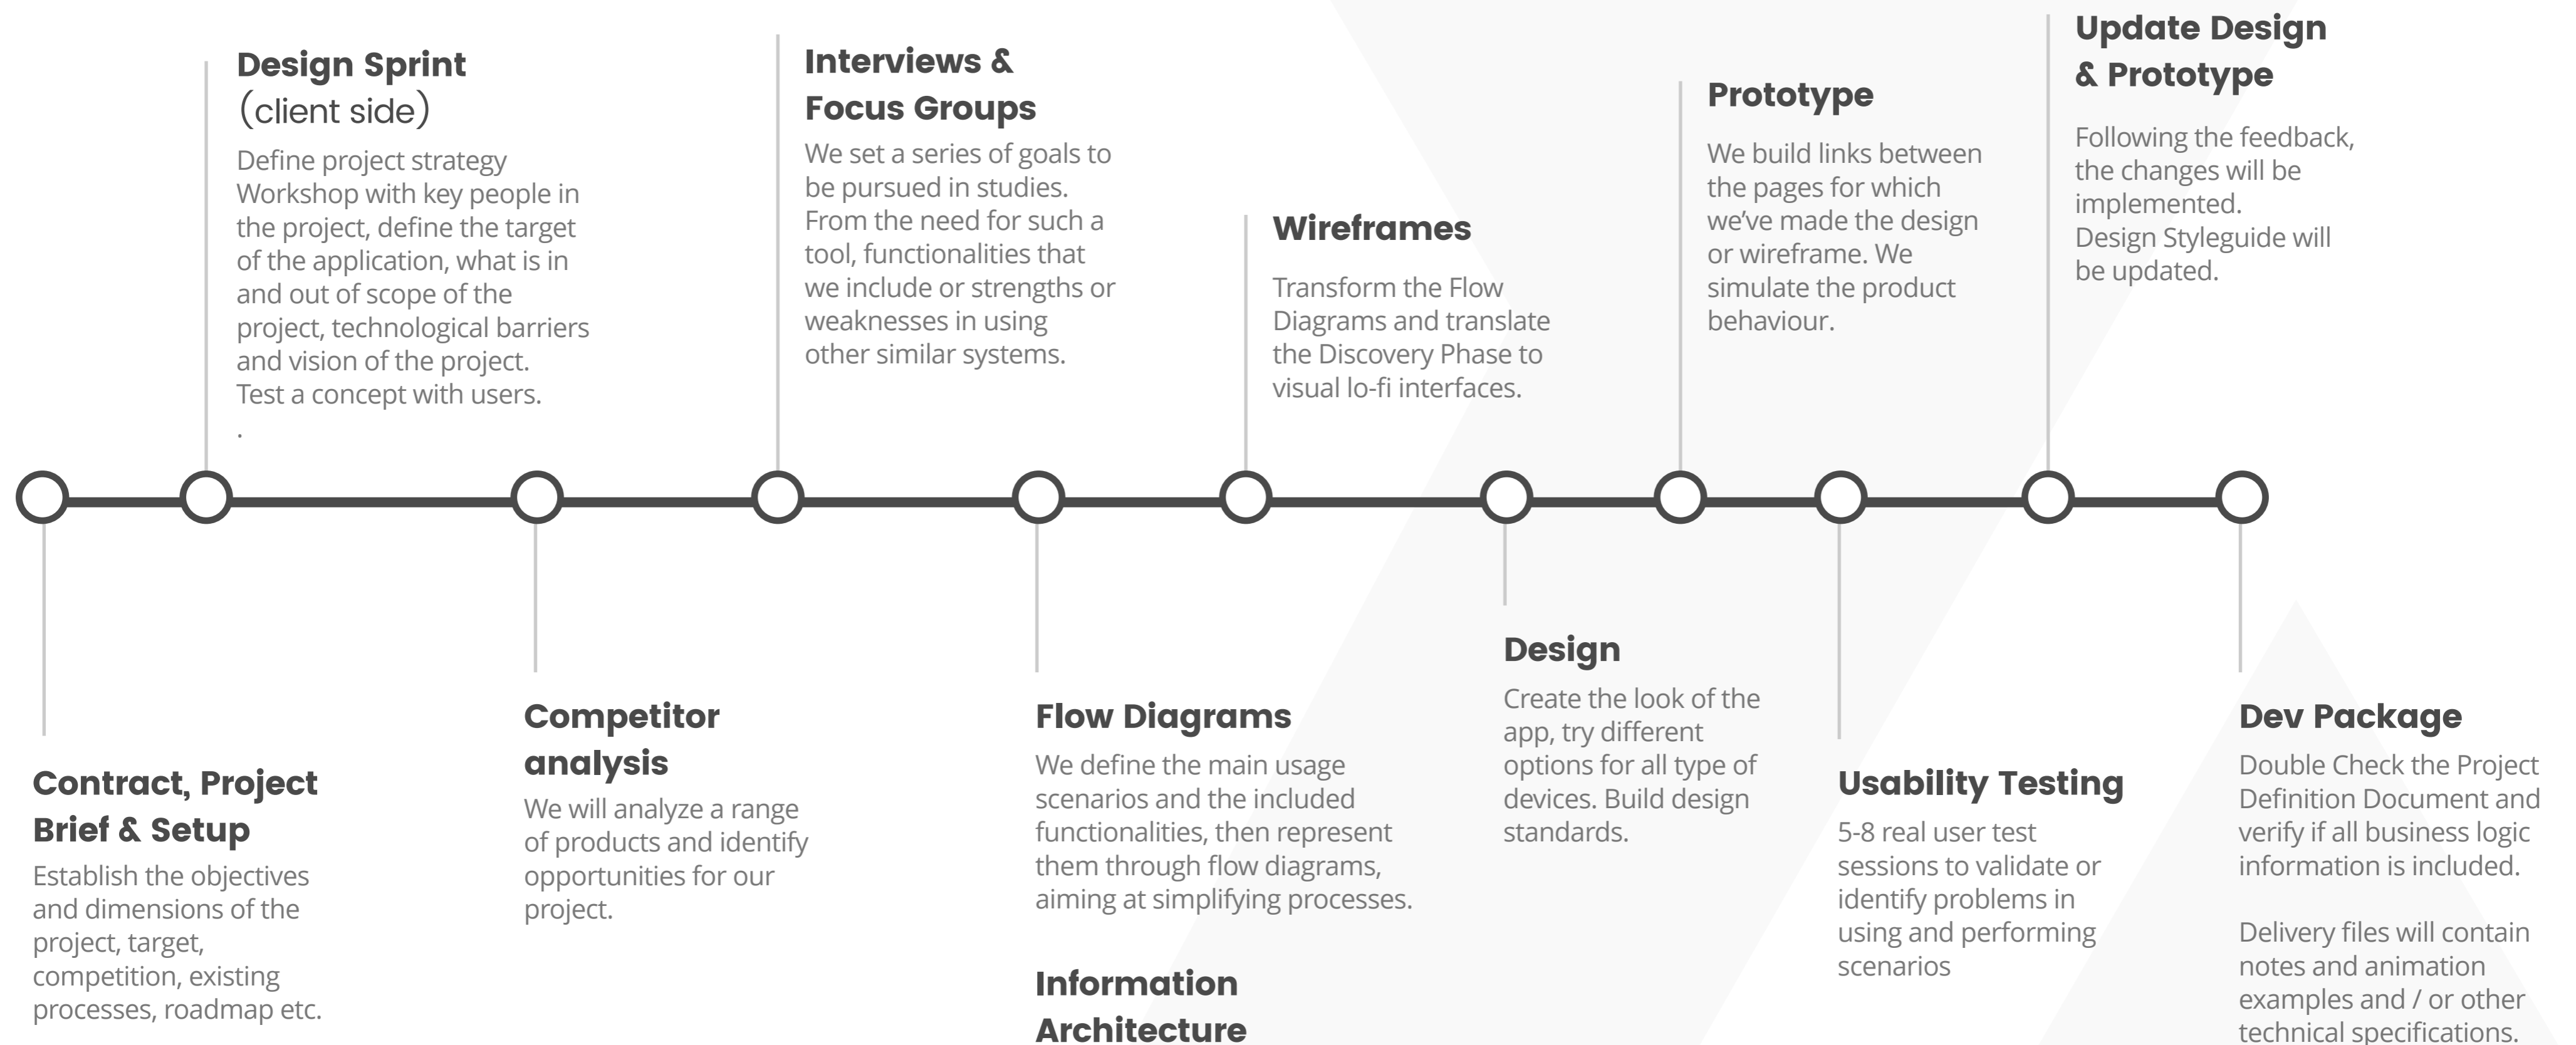

PHASE 1
DISCOVER

PHASE 2
DEFINE

PHASE 3
DESIGN

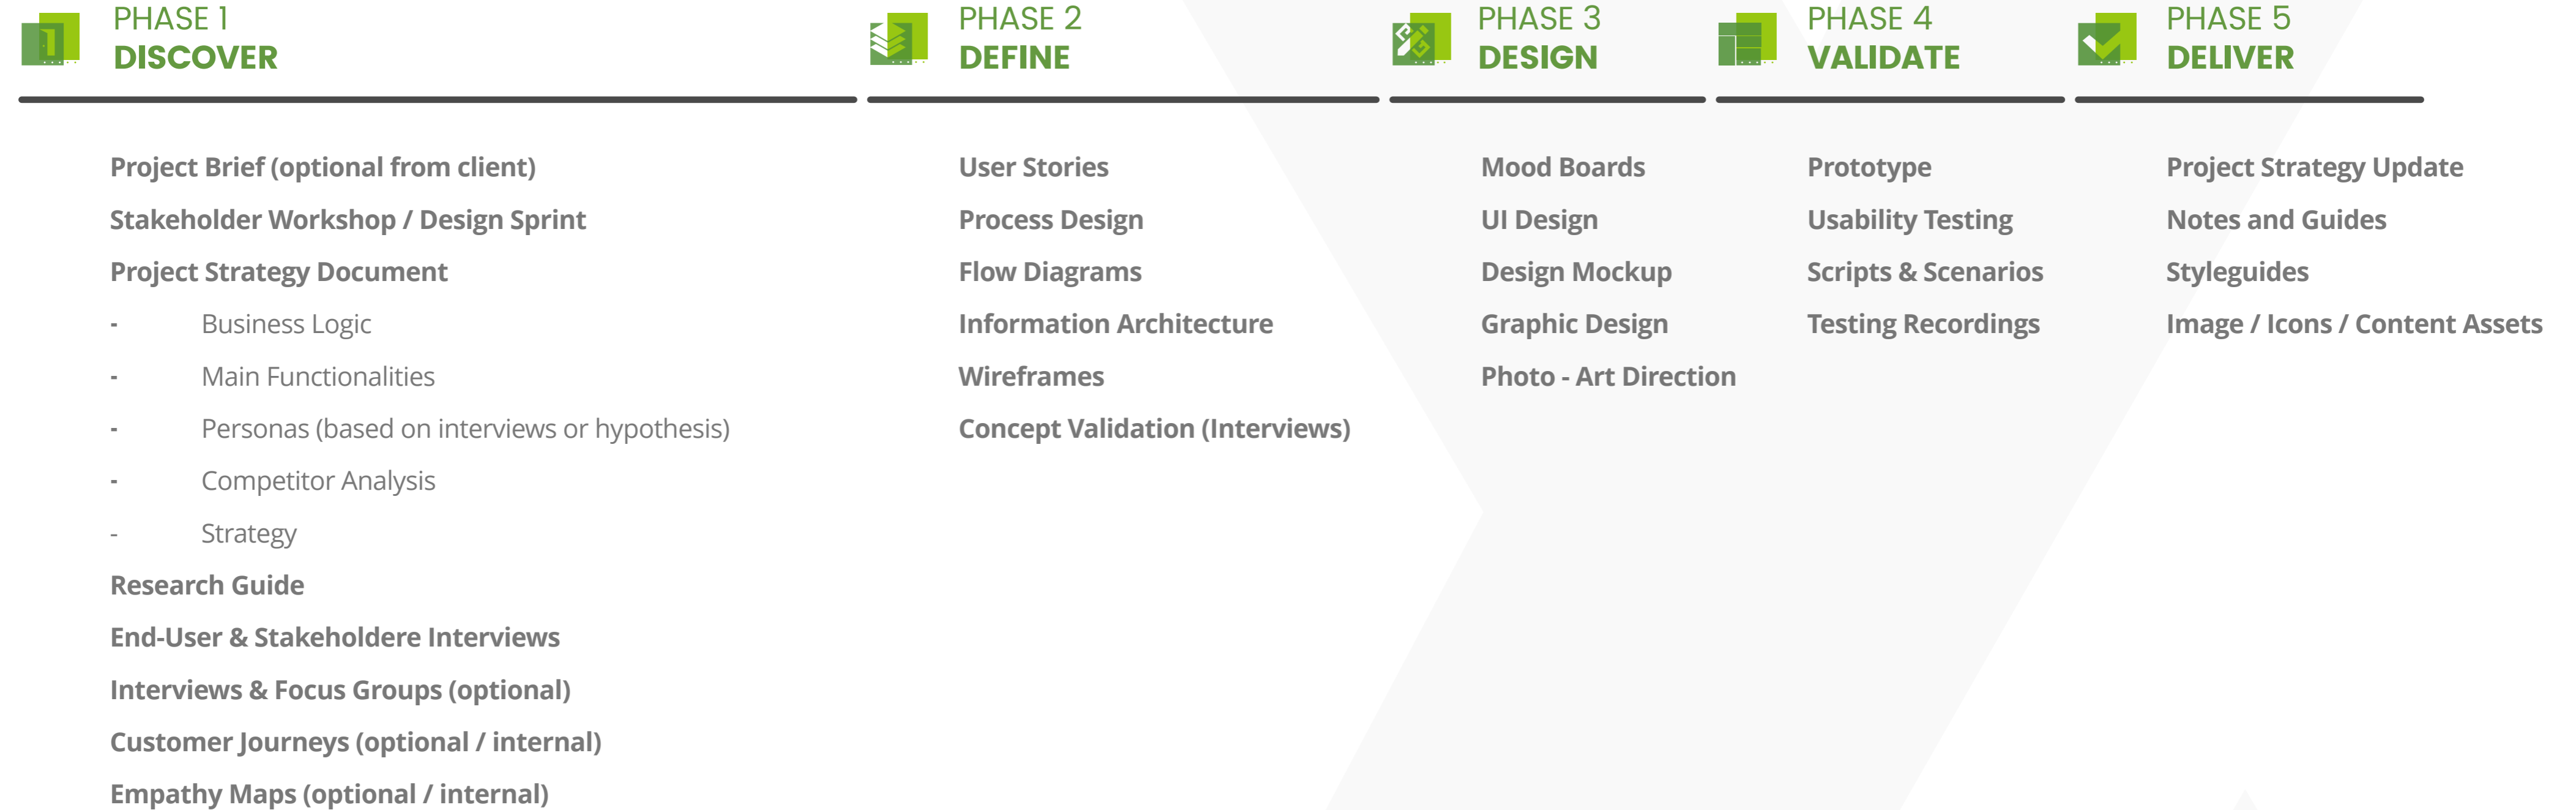

PHASE 4
VALIDATE

PHASE 5
DELIVER

Actions & Deliverables

The design deliverables are a critical bridge between designers and developers. Both the documents and the process that produces and delivers them deserve careful attention.
