SB-ALKALINE ADDITIVE

Cleaning Adjunct

PRODUCT DESCRIPTION

SB-ALKALINE ADDITIVE is a dry powdered oxygen bleaching agent used to provide enhanced soil and stain removal in alkaline cleaning operations in the dairy, beverage, brewing and food processing industries.

CHARACTERISTICS AND BENEFITS

- Oxygen bleach – Safer to handle and use than chlorine bleach
- Dry powdered formulation – Easy to measure
- Highly concentrated - Minimizes cost
- Dissolves easily – Minimizes labor requirements
- Highly effective and versatile – Removes tough proteinaceous soils while rapidly bleaching out discoloration and stains
- Strongly alkaline – Helps cut through soils quickly

DIRECTIONS

Typical use rate is 4 ounces of **SB-ALKALINE ADDITIVE** to 10 gallons of alkaline cleaning solution at 165° F. Consult your Shepard Bros., Inc. representative for specific use instructions in your application.

PROPERTIES AND SAFE HANDLING

A Material Safety Data Sheet containing detailed information regarding the properties and safe handling of **SB-ALKALINE ADDITIVE** is available on request and should be reviewed prior to using this product.

(Rev. 9/11)

The technical information and use suggestions herein are presented in good faith and are believed to be reliable. They do not constitute a part of our terms and conditions of sale unless specifically incorporated in our Order Acknowledgement. Nothing herein shall be deemed to constitute a warranty, expressed or implied, that said information or data are correct, or that the product described is merchantable or fit for a particular purpose, or that said information, data or product can be used without infringing patents of a third party. The purchaser must determine individually, by preliminary tests or otherwise, the suitability of this product for the intended purpose.
