Brewguard™ Enzymatic CIP

DESCRIPTION AND APPLICATION

Brewguard™ Enzymatic CIP is an enzyme-based cleaner formulated to remove all beer-based soils by combining surface wetting and emulsifying surfactants with the soil specific enzymes, protease and lipase.

FEATURES AND BENEFITS

- Safer handling characteristics – contains no caustic or highly alkaline components, nor chlorine or other oxidizing compounds
- Designed to clean at 100°F – 130°F – lower wash temperatures equal reduced energy costs
- Designed to clean at pH range of 8 – 9.0 – reduced alkalinity means less acid usage and reduced rinse times => chemical and water savings
- 100% biodegradable formulation
- Non-corrosive to stainless steel

USE DIRECTIONS

- Typical use rate is 1 oz. of product per 10 - 15 gallons of water
- Consult your Shepard Bros. Inc. representative for specific use instructions and recommended dispensing equipment

PROPERTIES AND SAFE HANDLING

A Safety Data Sheet containing detailed information regarding the properties and safe handling of **Brewguard™ Enzymatic CIP** is available on request and should be carefully reviewed prior to using this product.

(Rev. 3/2015)

The technical information and use suggestions herein are presented in good faith and are believed to be reliable. They do not constitute a part of our terms and conditions of sale unless specifically incorporated in our Order Acknowledgement. Nothing herein shall be deemed to constitute a warranty, expressed or implied, that said information or data are correct, or that the product described is merchantable or fit for a particular purpose, or that said information, data or product can be used without infringing patents of a third party. The purchaser must determine individually, by preliminary tests or otherwise, the suitability of this product for the intended purpose.
