Brewguard™ Acid LF

DESCRIPTION AND APPLICATION

Brewguard™ Acid LF is an inorganic acid formulation with select wetting agents that neutralize and remove baked on soil and alkaline deposits. This product is for use in CIP cleaning systems, spray applications and manual cleaning.

FEATURES AND BENEFITS

- A low-foaming, biodegradable and free-rinsing formulation
- Wetting agents provide rapid soil penetration, dispersion and suspension
- Powerful cleaning action rapidly removes beer stone, water hardness and mineral films
- Dissolves and helps prevent recurrence of beer stone and other mineral deposits when used alternately with an alkaline cleaner
- Excellent for the acidification of the exterior surfaces of stainless steel equipment
- Non-volatile, stable product that maintains effectiveness at high temperatures
- Non-corrosive to stainless steel at recommended use dilutions

USE DIRECTIONS

- Use at a rate of: 1 – 2 oz. of product per gallon of water
- Consult your Shepard Bros. Inc. representative for specific use instructions and recommended dispensing equipment

PROPERTIES AND SAFE HANDLING

A Safety Data Sheet containing detailed information regarding the properties and safe handling of **Brewguard™ Acid LF** is available on request and should be carefully reviewed prior to using this product.

(Rev. 3/2015)

The technical information and use suggestions herein are presented in good faith and are believed to be reliable. They do not constitute a part of our terms and conditions of sale unless specifically incorporated in our Order Acknowledgement. Nothing herein shall be deemed to constitute a warranty, expressed or implied, that said information or data are correct, or that the product described is merchantable or fit for a particular purpose, or that said information, data or product can be used without infringing patents of a third party. The purchaser must determine individually, by preliminary tests or otherwise, the suitability of this product for the intended purpose.
