ACIDIZE NF-20

Low Foam Acid Sanitizer

PRODUCT DESCRIPTION

ACIDIZE NF-20 is a concentrated, non-iodine acid sanitizer for C.I.P., C.O.P., tanks, backflush systems, and non-circulation applications. **ACIDIZE NF-20** provides effective germicidal action on a broad range of microorganisms including gram positive and gram negative bacteria. **ACIDIZE NF-20's** 1 ounce to 6 gallon use rate provides a low pH that insures rapid bacterial action while removing water scale and mineral build-up. **ACIDIZE NF-20** leaves equipment surfaces in an acidic range which lengthens life of stainless steel parts.

PRODUCT USES

Use **ACIDIZE NF-20** to sanitize pre-cleaned hard, non-porous food contact surfaces throughout food processing facilities. Use on storage tanks, vats, processing surfaces, utensils and similar equipment. Circulate through C.I.P. systems and liquid filling equipment where it will both sanitize and acidify surfaces. It is a violation of federal law to use this product in a manner inconsistent with its labeling.

PROPERTIES AND BENEFITS

VERSATILE

- Use **ACIDIZE NF-20** anywhere foaming is a constant problem.
- **ACIDIZE NF-20's** extremely low foaming formula, together with its low pH, makes it suitable for sanitizing virtually all surface types.

ECONOMICAL

- **ACIDIZE NF-20** both sanitizes and acidifies in one use.
- The 1 ounce to 6 gallon usage rate makes it more economical than traditional 1 ounce to 4 gallon acid sanitizers.
- **ACIDIZE NF-20** acidic blend is optimized to provide best use to cost performance.
