SB-LFI

Low Foaming Iodine Sanitizer

PRODUCT DESCRIPTION

SB-LFI is an EPA Registered low foaming iodophor sanitizer. It can be applied by spray, dip or C.I.P. operations.

APPLICATIONS

- Sanitize bottles and cans before filling.
- Sanitize equipment, tanks, vats, etc. in food plants.
- Sanitize walls and other similar surfaces.

ADVANTAGES

- Free rinsing.
- Does not require potable rinse when used at 25 ppm.
- Contains low-foaming surfactants that penetrate surface soils to aid in cleaning.

DIRECTIONS

The proper dosage for each application is detailed on the product label. Consult your Shepard Bros., Inc. representative for additional guidance in selecting the proper dosage and application method.

PROPERTIES AND SAFE HANDLING

A Material Safety Data Sheet containing detailed information about **SB-LFI** is available on request and should be reviewed prior to using this product.

(Rev. 03/10)

The technical information and use suggestions herein are presented in good faith and are believed to be reliable. They do not constitute a part of our terms and conditions of sale unless specifically incorporated in our Order Acknowledgement. Nothing herein shall be deemed to constitute a warranty, expressed or implied, that said information or data are correct, or that the product described is merchantable or fit for a particular purpose, or that said information, data or product can be used without infringing patents of a third party. The purchaser must determine individually, by preliminary tests or otherwise, the suitability of this product for the intended purpose.
