

Environmental Policy

Challenger Site Services LLP is committed to meeting industry best practice in environmental performance wherever reasonable to do so. The Company recognises that its activities may have some impact on the environment but will endeavour to minimise any impact where possible.

The Company believes good environmental performance helps ensure good business performance.

In pursuit of the Company's goals, Challenger Site Services LLP will implement the following principles:

- Endeavour, as a minimum requirement, to always conduct Company activities within the law and the requirements of statutory regulations;
- Develop and promote policies and procedures that minimise, where practical, the detrimental impact that the Company's activities may have upon the environment;
- Encourage the development of suitable methods, which promote environmental protection and/or minimise their environmental effects;
- Encourage contractors and suppliers to pursue best practice and to apply environmental friendly solutions;
- Provide education and training for employees, to help them include environmental considerations in all the aspects of their work friendly solutions;
- Attempt to make efficient use of natural resources and minimise, where possible, the use of utilities and production waste;
- Dispose of waste in accordance with waste management requirements; including where practical, respecting the environmental demands of the communities in which the Company operate and society in general.

Environmental issues, environmental legislation and environmental priorities will change with time. Challenger Site Services LLP will monitor environmental developments, regularly review and where necessary amend, or make additions to this policy
