

Get started and stay ahead with 3 FREE key cybersecurity tools

Simple. Fast. Effective.

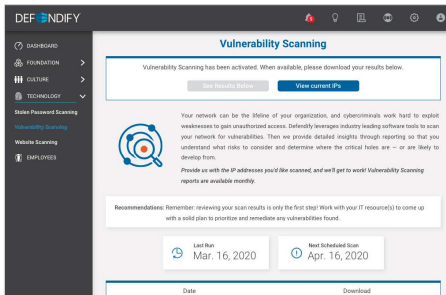

As small businesses navigate big changes, it's important to know your business, employees, and data are safe and secure. To help, we're offering the Essentials Package: 3 free cybersecurity tools to help you know where you stand, where you might have gaps, and what's going on.

Cybersecurity Assessment

Understand your cybersecurity posture

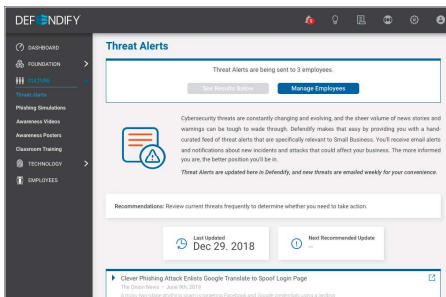

Answer simple questions about your cybersecurity foundation, culture, and technology to better understand your risk, and get recommendations for improvement.

Network Vulnerability Scanner

Identify critical network vulnerabilities

Leverage automated network scans that use machine learning and advanced logic to maximize reach and generate regular reports on any issues requiring remediation.

Threat Alerts System

Stay ahead of trending threats and recent incidents

Receive aggregated information about recent cyber-threats, industry incidents, and other cyber-related activities that could affect your small business.

Get Your Free Cybersecurity Essentials Package

We make it easy for small businesses to build a robust cybersecurity posture in one single platform.
