

PDF GENERATOR

BY FYB PTY LTD

The FYB PDF Generator enables users to generate a PDF rendition or revision of a document within Micro Focus' Content Manager and generate a PDF copy to send via email quickly and easily

Using the FYB PDF Generator will provide the following benefits:

- ▶ Intuitive interface, requiring no training, reducing the cost of deployment
- ▶ Streamlines the process for creating a PDF copy of a document, saving users time
- ▶ Allows users to generate a PDF of one or multiple documents on the fly, enabling the quick circulation via email to external parties

Version 2.0.0 Features

- ▶ Ability to generate a PDF rendition of a document or multiple documents to store against the record(s) in Content Manager
- ▶ Ability to generate a PDF revision of a document or multiple documents, saving the PDF as the latest revision of the document(s)
- ▶ Ability to generate a PDF copy of a document or multiple documents to send via email
- ▶ Option to create standard PDF, PDF/A Basic or PDF/A Accessible formats
- ▶ Option to finalise record when the PDF is generated

Prerequisites

- ▶ Micro Focus Content Manager 9.3x, 9.4x
- ▶ Supports Microsoft Office applications; Word, Excel, PowerPoint and Visio from version 2010 onwards
- ▶ Users must have the relevant Microsoft Office program installed on their machine in order to generate the corresponding PDF

Terms and Conditions

- ▶ Subscription pricing
- ▶ Provided free to FYB Members for the duration of the Support Membership

See how easy it is to use the FYB PDF Generator for sharing information from Content Manager. Contact us today to organise a demonstration and subscription pricing.
